English Placement Recommendations - COVID

1. SAT scores when available
2. Self-reported GPA
3. If neither SAT or official GPAs are available, students should be provided course descriptions and allowed to self-place (without course titles)
4. All students will be given a diagnostic test (provided by the department chairs) on the first day of class. English faculty, in consultation with department chairs, will make recommendations about appropriate placements. Students will have the right to stay in the original class if they choose.
