Non-credit Lifelong Learning
Welcome! Jobs start here! nv.edu/nc

Getting a job in today's employment market requires knowledge and skills. Our non-credit programs can help you gain knowledge and develop the skills that employers are looking for right now. We offer a wide variety of courses, seminars and workshops for professional development, career training and new technologies. Courses start throughout the year and prepare you for positions in high growth fields! Career certificate programs vary from 8 hours to 15 months; most are less than 4 months.

Mission Statement:
Our mission is to support community and economic development by effecting positive change in our communities. We collaborate with community partners to respond actively to the changing workforce needs of our region. We empower individuals and businesses through quality education and training. We enrich lives with lifelong learning personal and professional development opportunities.

Accreditation:
Naugatuck Valley Community College is accredited by the New England Association of Schools and Colleges, Inc. through its Commission on Institutions of Higher Education.

NVCC Learn 2 Earn! nv.edu/nc • 203-575-8029 • nc@nv.edu
Paying for Lifelong Learning

We offer a number of options that can help you pay for your education. Tuition is due at the time of course registration. Non-credit lifelong learning courses are self-supporting and are not funded by taxpayer dollars. Costs vary and state law does not allow us to exempt senior citizens.

NVCC Payment Plans
Payment plans are available for most job training programs. The plans divide the total cost into two or three payments. Tuition must be paid in full prior to completion of the course and is subject to a $25 fee for plan initiation and $15 late fees when payments are not received on time. Please check the individual programs at nv.edu/nc or contact 203-575-8029 for payment plan availability and details.

Tuition Authorization
Some employers, professional organizations, and religious groups will pay for an employee or member to enroll in a lifelong learning program. A tuition authorization letter must accompany the student registration. This letter must be on the organization's letterhead and include: the student name, course(s) title(s) and number(s), name of the responsible party, where the invoice should be sent, and a statement of promise to pay noting the tuition amount.

Employer Reimbursement
Your employer may provide educational reimbursement programs to their employees. Check with your human resources director to see if you qualify for tuition reimbursement within your organization.

Federal & State Financial Aid
Federal financial aid does not support non-credit programming. The Department of Labor and the Northwest Regional Workforce Investment Board administer a variety of programs for unemployed, underemployed, displaced workers, youth, and others. Please contact the American Job Center in your area directly to see if you qualify. Waterbury: 203-574-6971 or Danbury: 203-730-0451

Veterans' Benefits
Veterans' benefits vary. If you are interested in using veterans' benefits for your non-credit program please contact: Debbie DiCicco at 203-575-8006 or ddicicco@nv.edu.

Private Lending Institutions
Personal student loans may be offered through private banks and credit unions. You will want to check with your own lenders about specific plans and loan rates and be sure this will meet your needs.
Program Information • Job Placement

Program Information Sessions FREE!
These free sessions are offered to provide you a chance to come explore the numerous short-term job training programs that are offered at NVCC. Programs range from 8 hours to 15 months in length and meet on varying day and evening schedules. Payment options and resources may also be discussed. Registration is requested to be sure that appropriate staffing is available and in case of emergency cancellation of a session. Learn about the following certificate programs:

- Administrative Office Professional
- Agriculture
- Bartending
- Bookkeeper
- Central Sterile Processing Technician
- Food Safety
- Manufacturing
- Medical Administrative Assistant
- Medical Coding & Billing Specialist
- Microsoft Office® Essentials
- Nurse Aide Certification (CNA)
- OSHA 10
- Patient Care Technician (PCT)
- Personal Fitness Trainer
- Pharmacy Technician
- Phlebotomy Technician
- Real Estate
- Security Officer
- Welding*

*Free Welding Information Session with tour available. See page 51.

Agriculture

**Plant Physiology & Propagation**
Learn the fundamentals of plant growth, tissue development, and associated resistance factors. Topics will include seed/cutting propagation, the role of photosynthesis, cellular respiration, and plant transpiration. Practice propagating spring bedding plants from seeds, cuttings, and division. Learn methods of sanitation for prepping a facility for potted plants. Hands-on tutorials, in-class lab assignments and textbook will be provided.

CRN 4208 3 sessions
Wednesday, September 2 - September 16
9:30 am - 4:00 pm • Rm: E631
Instructor: Christopher Tuccio $129

**Environmental Influences on Plant Growth**
Discover the diversity of environmental conditions and their influence on crop growth. Learn how light, temperature, humidity and water influence crop cultivation. Study the physiological changes occurring in plants when variables are changed. Discover, through hands-on tutorials and in-class lab assignments, how these variable affect flower initiation, vegetative growth, and scheduling a crop for marketable sales. The textbook and instructional supplies are provided and included in the cost of the course.

CRN 4210 3 sessions
Wednesday, October 14 - October 28
9:30 am - 4:00 pm • Rm: E631
Instructor: Christopher Tuccio $129

**Greenhouse Structures & Operational Equipment**
Components of greenhouse construction and the equipment utilized within them will be explored in this class. The focus will be on the development of greenhouse structures from a business planning viewpoint with emphasis on cost effectiveness, potential crop production strategies, and retail/commercial considerations. Additional instruction will review hands-on operation of equipment utilized for heating/cooling, fertilization/irrigation, crop cultivation, and automated computer controls for greenhouses. Hands-on tutorials, in-class lab assignments and textbook will be provided.

CRN 4209 3 sessions
Wednesday, September 23 - October 7
9:30 am - 4:00 pm • Rm: E631
Instructor: Christopher Tuccio $129

**Integrated Pest Management for Greenhouses**
Discover the diversity of environmental conditions and their influence on crop growth. Learn how light, temperature, humidity and water influence crop cultivation. Study the physiological changes occurring in plants when variables are changed. Discover, through hands-on tutorials and in-class lab assignments, how these variables affect flower initiation, vegetative growth, and scheduling a crop for marketable sales. The textbook and instructional supplies are provided and included in the cost of the course.

CRN 4212 3 sessions
Wednesday, November 4 - November 18
9:30 am - 4:00 pm • Rm: E631
Instructor: Christopher Tuccio $129

**Business Planning & Crop Scheduling**
Gain an understanding of business planning methods for the greenhouse industry. Topics will cover the creation of a business plan, profit/loss accounting strategies for greenhouse businesses, and ordering techniques for future sales. The material will cover real-life examples taken from various seasons/greenhouse typologies.

CRN 4213 3 sessions
Wednesday, December 2 - December 16
9:30 am - 4:00 pm • Rm: E631
Instructor: Christopher Tuccio $129
Bartending

Professional Bartending with S.M.A.R.T. Certification

Bartending offers an opportunity to start a new career or a chance to supplement your income with a part-time position. This professional bartending course includes the state and national S.M.A.R.T. certification (Servers and Managers Alcohol Responsibility Training) recognized by the Connecticut Department of Liquor Control and police departments.

Servers of alcohol are taught to serve responsibly, how to spot signs of intoxication and how to respond appropriately. Students will learn to make more than 100 drinks, from gin and tonics to daiquiris. Instruction focuses on opening and closing procedures, product knowledge, speed of preparation and people skills.

Upon successful completion of the course, students receive a certificate and will have acquired the skills employers require to work in any environment that serves liquor, including restaurants, clubs, hotels and catering companies. Cost includes the textbook and materials. No alcohol is served in this course. Please bring your lunch.

CRN 4111 2 sessions
Saturday, October 17 & October 24
9:00 am - 5:00 pm • Rm: E623
Instructor: Paul Rich $292

Career Spotlight

Bartender

The Connecticut Department of Labor (CTDOL) reports the average annual income for a Bartender is $20,695. The CTDOL lists Bartenders as an In Demand Openings job and states employment in this occupation is expected to grow faster than average, and the number of annual openings will offer very good job opportunities.
Boating Safety

Safe Boating/Personal Watercraft
This course is designed to fulfill the requirements for the Connecticut Safe Boating and Personal Watercraft Certificate. Successful completion will allow the student to obtain a Connecticut Certificate of Personal Watercraft Operation, which enables him or her to operate recreational vessels up to 65 feet in length, including Jet Skis. Course fee does not include the one-time lifetime license fee. Prior to taking a boating class, each student must obtain a conservation number. See instructions on this page.

Option 1 - Weeknights
Instructor: Department of Energy and Environmental Protection
CRN 4131 4 sessions
Monday & Wednesday, September 14 - September 23
6:30 pm - 9:00 pm • Rm: L501 $25

Option 2 - One Day
Instructor: Professional Marine Services
(Please bring your lunch)
Select one of the following sections:
CRN 7157 1 session
Saturday, July 11
8:30 am - 4:30 pm • Rm: T515 $89

CRN 7158 1 session
Saturday, August 8
8:30 am - 4:30 pm • Rm: T515 $89

CRN 4130 1 session
Saturday, September 12
8:30 am - 4:30 pm • Rm: T516 $89

HOW TO OBTAIN A CONSERVATION NUMBER
Prior to taking the Basic Boating/Personal Watercraft course, each student must create an online account at ct.wildlifelicense.com/internetsales and obtain a Conservation ID.
• Read and follow the instructions for a New Customer to create an account.
• Print the page that includes your conservation ID number and bring it to class.
• After your class and once your score is entered into the DEEP system, you will use this account to purchase and print your certificate.

Here is what our students say...

"I learned a lot. I gained confidence and insight. The learning atmosphere was great. The location is convenient. Thank you!"

Robert Flanagan
NVCC Student
Boating Safety

Business

Administrative Office Professional

The Administrative Office Professional certificate program provides a dynamic and integrated approach to the ever-changing demands and responsibilities of the office professional in today's global job market. It is designed for the student who would like to develop the essential soft skills and hard skills needed in office administration for a wide range of industries and companies. Students will learn current procedures, duties, and responsibilities applicable to an office environment. Emphasis is placed on integrating skills using appropriate software applications and developing critical-thinking, problem-solving, and decision-making in real-life applications.

Administrative office professionals perform a variety of duties necessary to run an organization efficiently. They serve as information and communication managers for an office; plan and schedule meetings and appointments; organize and maintain paper and electronic files; manage projects; conduct research; and disseminate information by using telephone, mail, websites and/or social networks, and e-mail. They also handle travel and guest arrangements.

Prerequisites: High School diploma, GED or equivalent and basic computer literacy.

CRN 4162 14 sessions
Tuesday & Thursday, September 8 - October 22
6:00 pm - 9:00 pm • Rm: E402
Instructor: Angela Chapman $925

Need to strengthen your computer skills and beef up your resume?
See page 13-14 for computer technology courses.

Medical Administrative Assistant

Medical Administrative Assistants utilize their knowledge of medical terminology and health care delivery models to perform a number of administrative functions. They can work in a variety of roles and locations with job titles ranging from health unit coordinator or medical office specialist to medical secretary. Typical tasks would include scheduling tests or procedures, such as lab work or x-rays, surgeries and medical consultations based on physician orders, answering phones and directing calls, messages and reports to the appropriate staff, greeting visitors, ascertaining the purpose of the visit and interviewing patients to complete documentation, case histories or forms and process intake or insurance forms. Learn the skills needed to successfully carry out the varied responsibilities of the medical administrative assistant in most any setting. A central focus will be on the various modes of professional communication required to keep processes running smoothly in the office or health setting.

Pre- or Co- requisites

- Computers in Health Care, Microsoft Essentials or basic computer skills (See page 23 and/or 13.)
- Patient Confidentiality (See page 24.)
- Customer Service and Communication in Health Care (See page 24.)
- Medical Terminology (See page 23.)

Students must complete all of the above requirements either before or simultaneously with the Medical Administrative Assistant course to be awarded the completion certificate from NVCC. If you have prior experience and wish to discuss a course substitution, please contact the program coordinator, Judith Slisz, 203-596-8743 or jslisz@nv.edu.

Career Spotlight

Medical Administrative Assistant

According to the Connecticut Department of Labor employment in this occupation is expected to grow much faster than average, and the number of annual openings will offer excellent job opportunities. The average annual salary is $38,265 and the average hourly entry level rate is $14.41.
Business

**Budget Basics New!**
Understanding the budget process and the details of the annual budget are even more significant in these financially trying times. The “budget” seems to enter every workplace at every level. This course is intended for nonfinancial employees to help improve your knowledge of financial terms. You will then be able to use this knowledge to communicate more accurately and effectively with other departments and colleagues.

CRN 4166 1 session
Thursday, September 10
9:00 am - 3:30 pm • Rm: T649
Instructor: Joseph Cisto
$175

**Presenting with Confidence New!**
If you’re still in a panic when you are asked to present, this course is for you! No matter where you are in your career path, you need to be able to speak in front of a variety of audiences and to do so effectively and without fear. This two-day course will equip you with the means to plan your presentations and deliver them with confidence. Be ready for an interactive class that offers lots of practice and feedback on strengths, weaknesses and progress, all in a comfortable setting.

CRN 4225 2 sessions
Thursday, October 22 - October 29
9:00 am - 3:30 pm • Rm: T515
Instructor: Amy Lenoce
$300

**First Time Supervisor Skills New!**
Are you new at supervising people? Join us for a lively and interactive series of sessions that will give you the tools to assume the responsibilities of new leadership with confidence. Learn how to guide and coach your staff and enhance collaboration by improving your interpersonal skills, successful delegating, team development, understanding emotional intelligence, dealing with difficult people, delivering effective presentations, and the power of praise and recognition.

There are no prerequisites for this course but a strong desire to improve your skills and advance your career will make this course the most beneficial.

Microsoft Office® Essentials - Updated!

Word, Excel, Powerpoint, and Outlook are among the most utilized computer software programs in any work environment. Word, Excel and Outlook will be explored in depth including formulas and functions and how to create mail merges. Students will learn the basics of PowerPoint and will learn how to share data between the different MS Office programs. 

Topics include:
• Introduction to MS Office; Navigating MS Outlook
• MS Word
• MS Excel
• MS Powerpoint
• Integrating data from Word, Excel, and Powerpoint

Prerequisite: Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

CRN 4163 12 sessions
Tuesday & Thursday, October 13 - November 19
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko $825

Microsoft Office® 2013 Applications Series

These workshops are designed for the student who has a basic understanding of computers and software. The expert instructor will facilitate hands-on exploration and learning to get you started.

Each of these applications workshops is a component of the Microsoft Office Essentials certificate. If you are planning on taking more than one of these individual courses you may want to consider taking the Microsoft Essentials Series for a substantial savings over taking them separately.

Microsoft Office® & Outlook® 2013

This session will focus on basic computer concepts and the powerful applications available in the MS Office components. Navigate the ribbons and menus, create folders and organize your files for efficient recall. You will learn how to send and receive messages in MS Outlook, attach a file to an email message, and save an attachment from an email message.

Prerequisite: Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

CRN 4253 1 session
Tuesday, October 13
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko $99

Microsoft Word® 2013

Microsoft Word is an easy to use word-processing program that allows you to create many different types of documents. Get up to speed quickly in four content-packed evening sessions. Learn to format text using fonts and word art, paragraphs including bullets and hanging tabs, tables, and mail merge operations to create professional letters, envelopes and labels.

Prerequisite: Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

CRN 4263 4 sessions
Tuesday & Thursday, October 15 - October 27
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko $360

Want to expand your career options with specialized skills?

Consider adding QuickBooks, Budget Basics, or Presentation Skills to your resume. See pages 9-12 for on-campus and online learning options.
Microsoft Excel® 2013
MS Excel is an electronic spreadsheet used to store, organize, calculate and manipulate data. This course will improve your competency on creating worksheets, using basic formulas and functions and creating and modifying charts; an asset in any job in today’s industry where the budget and the collection and tracking of data is essential to business success.
Prerequisite: Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

CRN 4262 4 sessions
Tuesday & Thursday, October 29 - November 10
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko $360

Microsoft PowerPoint® 2013
Microsoft PowerPoint is a presentation software program; a great tool for business, classrooms, and personal use. Develop your skills to create a slideshow presentation today! Topics include:

- Create and open, save, print and deliver a presentation.
- Work with slides, including layout, design and organization.
- Create and import an outline to and from MS Word.
- Work with graphics, animation and sound.

Prerequisite: Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

CRN 4246 2 sessions
Tuesday & Thursday, November 12 - November 17
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko $180

Microsoft Office® 2013 - Integrated Program Tasks
Learn how to share data and information between the MS Office applications. Practice integrating Word, Excel and PowerPoint with each other. This comprehensive session includes the following topics:

- Combine items created in various MS Office applications.
- Integrate data from Excel into Word and PowerPoint.
- Integrate Excel chart into Word and PowerPoint.

Prerequisite: Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

CRN 4245 1 session
Thursday, November 19
6:00 pm - 9:00 pm • Rm: T641

Instructor: Jayson Ferron
$900

Introduction to PC Security
What you don't know about PC security really can hurt you! Learn why you're at risk and what you can do to protect your precious personal and business data from the outside world. This course, taught by a security expert, will quickly bring you up to speed on the fundamentals of PC and network security. Visit ed2go.com/nvcc for more information. $100

Advanced PC Security
When is hacking legal? When you use it to secure your own network. This new method of hacking, called ethical hacking or white-hat hacking, uses common and readily available hacking tools and techniques to audit your network so you can locate and close security holes. Whether you're running a small home network or you're an enterprise network administrator, this course will teach you how to better protect your system against those who wish to gain unauthorized access. $100

CompTIA Security + Certification Prep
The U.S. Department of Labor forecasts that information security analysts will be among the fastest-growing occupations through 2022. CompTIA's Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA's challenging SY0-401 exam.

This course covers the key terminology and concepts you need to know to ace the exam, all in a condensed format for rapid reading. The course provides helpful study tools including crossword puzzles, games, and practice questions to aid with learning. All of the content is geared toward helping you pass the SY0-401 exam so you can leave the test center with your Security+ certificate in hand. Visit ed2go.com/nvcc for more information. $120

CompTIA Security + Certification Prep 2
The U.S. Department of Labor forecasts that computer security and related computer-support specialties will be among the fastest-growing occupations through 2018. CompTIA's Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA's challenging SY0-301 exam.

This course, the second of two courses, reviews the key terminology and concepts needed to ace the CompTIA's challenging SY0-301 exam, all in a condensed format for rapid reading. The course provides helpful study tools, including crossword puzzles, games, and practice questions to aid your learning. All of the content is geared toward helping you prepare to pass the SY0-301 exam, so you can leave the test center with your Security+ passing score in hand. Visit ed2go.com/nvcc for more information. $120

English as a Second Language (ESL)

Are you new to the U.S.A.?
Do you need to refine your English skills for the workplace?
Are you preparing to take classes in the U.S.A.?

Naugatuck Valley Community College has what you need!

Our English as a Second Language program is designed for students whose native language is not English. It endeavors to help students attain a level of proficiency in English that will enable them to reach their academic, career or personal goals.

We offer grammar, oral communication, pronunciation, and reading and writing courses at the beginning, intermediate and advanced levels.

Placement tests determine the appropriate level and course for you. The testing consists of two parts: a computerized LOEP (Level of English Proficiency) test and a writing sample.

Fitness and Wellbeing Careers

Personal Fitness Trainer Orientation

Online format! FREE!
Choose one:

Wednesday, September 2, 4:00 pm
or
Thursday, October 1, 12:00 pm

Take this orientation online from home and learn what it takes to become a Personal Fitness Trainer. One of our veteran instructors will paint a clear picture of what to expect in the course and the great rewards that await you in this growing field. You will be able to ask questions and participate in a live chat with our instructor. This is accessible as an online meeting or an audio conference only. Please go to our web page at nv.edu/fitness for special access information and password.

Career Spotlight

Personal Fitness Trainers

Careers in fitness and wellbeing are in demand. According to the Connecticut Department of Labor (CTDOL) employment opportunities and jobs will increase 26.6% between 2012 and 2022 in this mid-level skills field.

Employment in this occupation is expected to grow much faster than average, and the number of annual openings will offer very good job opportunities. The average income is reported as $40,863 annually.

Personal Fitness Trainer Certification

Come join this fun profession and be a part of what Fortune Magazine & ABCNEWS.com state is the 4th hottest job in the U.S. at a national average of $34 an hour. Employers such as 24 Hour Fitness, LA Fitness and Gold’s Gym are just a few of the club groups that seek out our graduates. Whether for a career or your own personal knowledge, get all the information you need to become a Certified Personal Trainer.

- This challenging course is taught over a 9-week period for better retention and skills competency.
- The National World Instructors Training School (WITS) exam is held on the 9th week.
- This course is formatted as a 62-hour program, comprised of 16 hours of lecture, 16 hours of hands-on practical training and a 30-hour professional practice experience (PPE).
- WITS provides a list of facilities or you can find your own and have it approved through a simple process.
- Key topics include biomechanics, exercise physiology, fitness testing, equipment usage and health assessment.
- CPR/AED certification is needed to receive the WITS certificate.

(Offered Spring 2016 at NVCC.)

Basic Life Support - Health Care Providers

In this classroom-based course, healthcare professionals learn to recognize several life-threatening emergencies, provide CPR to victims of all ages, use an AED, and relieve choking in a safe, timely and effective manner. Participants who successfully complete the written exam and skills validation will receive an American Heart Association BLS for Health Care Providers card, valid for two years. The textbook is included in the price of the class and should be picked up during the week prior to class in Kinney Hall, Room K407 or at the Danbury Campus Administration Office. Please be on time or you may be turned away at your own expense.

This course meets most healthcare employers’ requirements for formal BLS evaluation and is a prerequisite to many health care education programs, including those at NVCC. Required course for the PCT program; Included in the PCT Fast Track and Phlebotomy Technician programs.

Central Sterile Processing Technician

Central Sterile Processing Technicians are responsible for the sanitation, packaging and distribution of surgical instruments. This entry-level health care career program prepares the student for work in a hospital, surgical center, or other facility that utilizes a central sterile supply department.

This program includes such topics as: anatomy and physiology; microbiology and infection control; decontamination and sterilization processing; and how to handle, care for, and identify surgical instruments. A tour of the Central Sterile Processing Department at an area hospital is included. The textbook is included in the price of the course.

National certification exams are available and will be described in more detail in class. The Medical Terminology course offered on page 23 is recommended but not required.

**Prerequisite:** Students must provide proof of a high school diploma or GED at registration.

**Career Spotlight**

**Central Sterile Processing Technicians**

The current job market calls for Central Sterile Processing Technicians not just in hospitals, but also places like surgical centers, endoscopy offices, dental offices and even travelling opportunities for temporary assignments. This course will prepare you for national certification that many area employers are requiring for employment.

Many employers require national certification by a professional organization as a requirement for hire or for a new employee to have the certification within a limited time from their start date. For information about certification options and career and job opportunities please view these professional organization websites:

- The Certification Board for Sterile Processing and Distribution (CBSPD): sterileprocessing.org
- International Association of Healthcare Central Service Material Management: IAHCSMM.org

**Here is what our students say...**

“I enjoyed the Central Sterile Processing class. My instructor was as enthusiastic as she is knowledgeable. I learned so much from her and I feel confident that I will be able to pass the CBSPD certification exam.”

Maureen Brundage, NVCC Student Central Sterile Processing Technician
Computers & Electronic Medical Records in Health Care

Technology is an integral part of health care. Take a patient's blood pressure and then record it in the electronic medical record. Answer the phone in the health care provider's office and enter the new appointment in the computer schedule. Assist the resident with range of motion exercises and document it so the physical therapist will know it was completed. This course will review the basic skills required to operate a computer and introduce you to the practical applications used in health care today. Required for the PCT program and is included in the PCT Fast Track and Phlebotomy Technician programs.

Customer Service and Communication in Healthcare

Patient Confidentiality

Everyone’s Job, Not Everyone’s Business!

It’s everyone’s job, but not everyone’s business! Patient confidentiality is protected by law and healthcare providers have the professional, ethical and legal obligation to protect it as well. Know which information you can or cannot discuss at the dinner table or at work, and the rules you must follow to be in compliance with the latest HIPAA privacy and security regulations. Required for the PCT program and is included in the PCT Fast Track and Phlebotomy Technician programs.

Health Care • Medical Coding and Billing

Medical Coding and Billing Specialist
Do you envision working in the healthcare field, but not directly with patients? Medical Coding and Billing might be just the career you are looking for. Employment prospects for Medical Coding and Billing Specialists remain strong. Our graduates are employed in a variety of settings including: physician offices and clinics, medical group practices, managed care companies, insurance companies, hospitals and other health providers.

The Medical Coding and Billing Specialist program at our Waterbury Campus starts each fall semester. The program includes 450 hours of combined classroom and clinical learning. Classes are held three weekday evenings per week for three hours. The program will take you one year, plus your professional practice experience, to complete. There are four modules, including a daytime clinical experience. Students successfully completing the program will be eligible to sit for national professional certification. At $6,500, you’ll find that NVCC is extremely cost-effective compared to other medical coding and billing programs.

The cost includes textbooks for all modules.

A course calendar and payment plan are available at nv.edu/medicalcoding.

CRN 4133 450 hours
Monday, Wednesday & Thursday
September 24, 2015 - September 26, 2016
6:00 pm - 9:00 pm • Rm: T641

Career Spotlight
Medical Coding and Billing Specialist
Medical Secretaries and Billing and Posting Clerks are listed by the Connecticut Department of Labor (CTDOL) as Hot Jobs. The average annual income for these careers is $38,114 - $40,618. The role of Medical Billing and Coding Specialists is undergoing dramatic changes with the implementation of ICD-10 coding criteria and the federally mandated compliance with electronic medical records. Our area employers state they are poised to grow and will strongly value the applicant with current knowledge of the industry standards. National certification is also available from recognized professional organizations. Information will be provided in class.

American Health Information Management Association: ahima.org
The Professional Association of Health Care Coding Specialists: pahcs.org
AAPC (American Association for Physician's Coding): aapc.com

ICD-10-CM
On October 1, 2015 all HIPAA covered entities will transition to the ICD-10-CM. This transition means substantial changes in your practice’s day-to-day coding and provider documentation procedures.

Take this course designed for the experienced coder and learn the knowledge you need to accurately code with the new set of codes. Join other colleagues starting in October for a 6-week seminar course that will provide a comprehensive study of ICD 10 CM. Specificity and correct coding procedures and techniques will be stressed.

CRN 4132 6 sessions
Thursday, October 15 - November 19
5:30 pm - 8:30 pm • Rm: T515

Check out our new Medical Administrative Assistant course! See page 10 for details.
Health Care • Nurse Aide Certification (CNA)

Certified Nurse Aides care for people in their homes, long-term care facilities, hospitals, physician offices and clinics. You will participate in classroom discussions and lectures, have a chance to try out new skills in a safe and comfortable environment in our simulated labs and then go on to gain experience in a clinical setting. Registered Nurse instructors will facilitate your learning in all areas. After successful completion of our program you will be well prepared to take the State of Connecticut Nurse Aide Competency Exam given on site and included in the cost of the course. NVCC’s annual Connecticut State Competency Exam pass-rate exceeds 98%.

Important course and student information:
- Please visit our website nv.edu/cna or call 203-575-8029 for an information packet and detailed course calendars. Due to weather and other unforeseen circumstances, some variations in dates and times may occur in each schedule.
- Federal and State-mandated attendance requirements must be met.
- A textbook will be provided for your use for the duration of the class at no additional charge.
- A workbook is included in the cost of the course and will be provided in class.
- A health screening and up-to-date immunizations are required by the second week of class.
- Documentation must be in the form of a completed NVCC CNA Health form. This form can be downloaded at nv.edu/cna.
- Students are responsible for their own transportation to and from clinical location. Some but not all clinical facilities are located on a bus line and availability is not guaranteed.
- A criminal background check is required of all students entering the program. Cost is included in the course fee.
- Students with criminal convictions may have difficulty finding employment, especially in health care and may be denied clinical placement. Felony or misdemeanor offenses may prevent you from participating in clinical and mandate withdrawal from the program. No course refunds are available in this situation. Please consult the program coordinator prior to registration if you have any concerns.
- The Connecticut State Competency Written and Skills Exam is administered on-site and is included in the cost of the course.

CNA Frequently Asked Questions (FAQ)

There are other CNA programs. Why NVCC? Are they all the same?
NVCC is proud to offer one of Connecticut’s largest, oldest and most respected CNA programs. All of our instructors are experienced Registered Nurses. We more than meet the minimum standards set by the State. You will get more hours of practice in our health lab and more supervised time working with residents in the clinical setting. Our program includes one opportunity to sit for the on-site Connecticut Nurse Aide Competency Exam and is included in the cost of the course. Students will attend classes in a college setting and have access to college support resources, including the library and Job Placement Center. A graduation ceremony is held for all successful participants and graduates are awarded completion certificates and a custom-designed NVCC CNA pin to wear proudly on your uniform. We hope that you decide to join us. You will be happy that you did!

I have a criminal record. May I register for the CNA course?
Those with a criminal record may have difficulty finding employment in the health care field at any level. A criminal background check is done for all students registered in the program during the first week of class. Students who do not pass the background check will not be admitted to the clinical facility and will be withdrawn from the program at their own expense. No refunds are awarded for withdrawal because of failure to pass the background check. Please consider this carefully before registering.

My certification has lapsed. What should I do?
Call the Department of Public Health, Nurse Aide Registry, at 860-509-7596. You may be required to either take the CNA course again or to retake the State certification exam.

I am certified in another state. How can I work in Connecticut?
Call the Department of Public Health, Nurse Aide Registration at 860-509-7596 for information about obtaining Connecticut credentials.

Can I pay for tuition in smaller payments?
Yes, we offer a tuition installment plan which allows you to pay in two or three payments. The specific payment amounts and dates are listed in the plan. Call 203-575-8029 to have one mailed to you or print one online at nv.edu/cna.

Can I get financial aid for the CNA course?
Sorry, federal financial aid is not available for any of our non-credit courses. You may qualify for educational funding at the American Job Center if you meet income and employment criteria. Please contact them in Waterbury at 203-574-6971 or Danbury at 203-730-0451. Some area employers offer tuition reimbursement; please check directly with your employer. As noted above, we also offer a convenient NVCC tuition installment plan that allows you to pay for the course in installments.

FAQ's continued on page 28.
Health Care • Nurse Aide Certification (CNA)

CNA Frequently Asked Questions (FAQ) (continued)

I am ready to sign up! How can I register for NVCC CNA or PCT Courses?
Registration details are on pages 59-60.

I want to be a nurse. Do you have a nursing program?
Yes. Many students pursuing a career in health care begin with the CNA program while earning money to continue their education. NVCC has an associate degree program preparing you as a Registered Nurse. Call the Admissions Office at 203-575-8040 or go to nv.edu/nursing for more information.

How can I get information about CNA courses at NVCC?
1. Visit us online at nv.edu/cna to view or download detailed course calendars, tuition installment plan and health form.
2. Call 203-575-8029 or email nc@nv.edu to request a CNA information packet be mailed to you.
3. Visit Kinney Hall, Room K407, on the Waterbury Campus or NVCC Danbury Campus, 183 Main Street, to pick up a CNA information packet.
4. Attend one of our free information sessions. See page 5.

Here is what our students say...

"I had a great experience here at NVCC. All of the instructors were so polite and cared about student success."

Ryann Kelly
NVCC Student, CNA

Career Spotlight
Certified Nurse Aide

The Connecticut Department of Labor (CTDOL) reports the average annual income for Nursing Aides, Orderlies, and Attendants is $32,188 with a mean hourly rate of $15.48. The CTDOL lists Certified Nurse Aide as a Hot Job and states employment in this occupation is expected to grow about as fast as average, and the number of annual openings will offer excellent job opportunities.

It is mandated that for employment, all nurse aides must be listed on the Connecticut Nurse Aide Registry. Successful completion of the Connecticut Nurse Aide Competency Exam is required for registry. The exam is given on site and included in the cost of the course.
Health Care • Patient Care Technician (PCT)

The Patient Care Technician (PCT) Certificate Program is an exciting opportunity for you to start your healthcare career or advance your skills, earn a better salary and have more job options in a changing work environment. PCT’s are valued members of many healthcare teams. They work in hospitals, rehabilitation settings, physician offices, clinics, and long-term care facilities. The PCT will expand the knowledge and skills of the nurse aide to care for patients with complex and sometimes acute diagnoses. Learn the art and science of drawing blood specimens, accurately recording an electrocardiogram, and working within a sterile field used for surgical procedures.

The Patient Care Technician Certificate Program is a series of courses, including Nurse Aide Certification (CNA), which prepares you to enter the healthcare profession and care for a variety of patient populations. The courses may be taken on a part-time or full time basis in Waterbury or Danbury. Choose the pathway and schedule that fits your goal. Need help deciding? Attend a free Program Information Session (page 5).

PCT Fast Track

If you are ready to get going and want to finish quickly, then you should register for the PCT Fast Track. The schedule provides you with all the required courses and two electives (Medical Terminology and the Hospital Clinical) in a preset calendar to have you job ready in just months. The Fast Track also includes Computers for Health Care and Math for Health Care as part of the program. Students who already have their CNA may request to join the Fast Track schedule at a reduced rate. Please contact 203-575-8029.

PCT "á la carte"

Some students wish to pursue courses at their own pace and choose their own plan. This allows students to plan courses around other commitments. Not all courses are offered each semester. Course schedules often rotate between day and evening sessions and between Waterbury and Danbury locations. PCT courses can also be taken individually to add to your skill set, for example a CNA working in a physician’s office might take the EKG and Pulse Oximetry Skills class.

Required Courses:
- Advanced Patient Care Skills .........................33
- BLS - Basic Life Support ..................................21
- Computers & EMR in Healthcare .......................23
- Customer Service and Communication in Health Care ..................................................24
- EKG & Pulse Oximetry Skills ..........................33
- Nurse Aide Certification (CNA) ......................26-28
- Patient Confidentiality ...................................24
- PCT Orientation ..........................................31
- Phlebotomy for the PCT ..................................31
- Rehabilitation Skills .....................................32

Electives: Choose 2:
- Alzheimer’s and Other Cognitive Changes in the Elderly ..................................................**
- Behavioral Health ........................................**
- Caring for the Pediatric Client .......................**
- Care of the Growing Family ...........................**
- Compassionate Care for the End of Life .........**
- Hospital Clinical ...........................................32
- Medical Terminology .....................................23

** In future semesters
Health Care • Patient Care Technician (PCT)

Why PCT at NVCC?

Student Success is Our Expectation!

- Our experienced faculty are experts in their fields and ready to support your learning in the classroom and the clinical setting.
- The program content was created in collaboration with area employers to assure you learn the knowledge and skills employers are seeking.
- The curriculum is designed to provide you with a breadth of patient care skills that give you a broader arena in which to seek employment.
- Students enjoy the resources and support of the College community.
- The Job Placement Center is available to assist you in your job search, tune up your resume, post to our job board, practice your interviewing skills and find the opportunities available to you.
- The Academic Center for Excellence and the Max R. Traurig library staff are available on the Waterbury and Danbury Campuses.
- Choose the course schedule that meets your life and learning styles. We offer Fast Track and "a la carte" options as well as day and evening classes.
- Individual certificates are awarded at the completion of each course; giving you documentation of your competencies as you earn them. Take these along to job interviews.

PCT Fast Track

This program is designed to get you job ready in just months. Start with an orientation to the job role, earn your Nurse Aide Certification (CNA) and culminate in a hospital clinical experience. In this PCT Fast Track program, you and your classmates will take a prescribed schedule of classes designed to give you a strong background that is desired by employers in our area. Students who already have their CNA may request to join the Fast Track schedule at a reduced rate. Contact 203-575-8029.

- Federal and State-mandated attendance requirements must be met.
- Due to weather and other unforeseen circumstances, some variations in dates and times may occur.
- All students are required to have a background check prior to clinical participation. Cost is included in the course fee.
- Students with criminal convictions may have difficulty finding employment, especially in health care, and may be denied clinical placement. A criminal background check is required of all students entering the program. Felony or misdemeanor offenses may preclude you from participating in clinical and mandate withdrawal from the program. No course refunds are available. Please consult the program coordinator prior to registration if you have any concerns.
- Textbooks are included in the cost of the course.
- Graduates receive a custom-designed NVCC PCT pin.

Prerequisites:

- A high school diploma, GED or equivalent
- A health screening and up-to-date immunizations are required by the second week of class. Documentation must be in the form of a completed NVCC CNA Health form. This form may be downloaded at nv.edu/pct.

Full course calendars are available at nv.edu/pct.

Health Care • Patient Care Technician (PCT)

PCT Orientation
This required course will review important information to prepare the student for entry into the PCT program. It is strongly recommended that students take this class first but registering within the first semester of course work is acceptable.

Topics will include:
• What is a PCT?
• Where do PCT’s work?
• Personal program planning
• Course descriptions
• How to choose electives

Select one of the following sections:

CRN 4198
Danbury Campus

12:30 pm - 2:30 pm • Rm: E318A
Instructor: Kimberly Grivner, RN $10

Phlebotomy for the Patient Care Technician
The art and science of phlebotomy is an important part of the role of many patient care technicians. This course will include: skin puncture techniques, collection procedures, legal issues, safety concerns, infection control and quality assurance. Teaching methods include lecture and supervised hands-on practice in a simulated lab setting but does not include a clinical rotation. The textbook is included in the cost of the course and will be provided at the first class session.

Prerequisite: CNA
Required course for PCT program.

Health Care • Patient Care Technician (PCT)

Rehabilitation Skills
Designed for the health care worker (CNA/PCT), this course will provide you with the necessary skills to properly handle patients and facilitate optimal health and rehabilitation. This energizing class is packed with useful information and hands-on practice. Rehabilitation skills will include:

- Body mechanics
- Bed positioning, mobility and transfer
- Ambulation, balance and wheelchair training
- Assistive/mechanical devices - what they are and how they are used

Prerequisite: CNA
Required course for PCT program.

Hospital Clinical
Care of the Hospitalized Patient
For more information and a schedule call 203-575-8029.
This is your opportunity to explore the dynamic world of acute care as you take your advanced care skills into a hospital setting. You will care for various patient populations: medical, surgical, orthopedic, post-partum, emergency or others during your 30-hour clinical experience.

Prerequisites: Documentation of prerequisites must be provided to the Office of Non-Credit Lifelong Learning in K407 prior to the first class.

- Current CT CNA Certification.
- Current health screening (within 1 year) that includes: Up-to-date immunizations, negative TB documentation and proof of flu vaccine.
- Health care provider’s signed statement that the student may participate in the course activities without restrictions. NVCC health form is available at nv.edu/cna.
- Successful completion of Advanced Patient Care Skills course at NVCC.

Questions about prerequisites must be addressed before the start of the course. Contact the program coordinator, Patricia Targett at ptargett@nv.edu.

An information packet, will be emailed prior to the start of class. Please be sure to provide your updated email address to be sure you don't miss this important information. Included in the PCT Fast Track program. Elective for the PCT program. Register early - enrollment is limited.

Sections forming now. Please contact 203-575-8029 to be added to the "interested list." The cost of the course is $489.
Health Care • Patient Care Technician (PCT)

Advanced Patient Care Skills
This 30-hour course is designed to build on the knowledge and skills of the CNA course. Participants will learn skills including:

- Wound care and sterile dressings
- Respiratory procedures
- Advanced catheter care and specimen collection
- Pre and post-operative care
- Administration of enemas and colostomy care
- Nasogastric tubes and tube feedings
- Point-of-care testing - glucometer

There will be opportunities for students to have extensive supervised hands-on practice in a skills laboratory setting. The required textbook and workbook are included in the cost of the course and will be provided at the first class session. *Included in the PCT Fast Track program. Required course for PCT program.*

**Prerequisite:** CNA

*Select one of the following sections:*

Pharmacy Technician

Pharmacy Technicians are important members of the healthcare team. They receive and process prescriptions, maintain stock levels, and fill unit-dose medication carts under the direction of a licensed pharmacist. In this 60-hour course, students will learn dosage calculation, I.V. flow rate, drug compounding, and dose conversion. The textbook and instructional materials are included in the cost of this course.

Prerequisites:
- High School Diploma, GED or equivalent.
- High school math, including solving simple algebraic equations. A Basic Math for Healthcare refresher is available. See page 23.
- A background check is not required to take this course but students with criminal convictions may have difficulty finding employment, especially as a pharmacy technician.

Select one of the following sections:

**Pharmacy Technician Clinical**

Explore the role of a Pharmacy Technician in the professional environment. Enhance your knowledge and improve employment opportunities by participating in the real world functions of a Pharmacy Technician in a patient care and customer setting. You will gain experience in central pharmacy functions including sterile IV compounding, narcotic vault, barcode medication identification, and unit dosing technology. Based on your facility placement, you may also gain experience with automated inventory carousel and dispensing cabinets, or order entry and medical records. Duties will include inventory, labeling, preparing doses, IV sterile preparation, medication delivery and pre-packing.

Course Requirements:
- Successful completion of the Pharmacy Technician course at NVCC.
- Current health screening (within 1 year) that includes: Up-to-date immunizations, negative TB documentation and proof of flu vaccine.
- All students are required to have a background check prior to clinical participation. Cost is included in the cost of the course.
- Students with criminal convictions may have difficulty finding employment, especially in healthcare. Felony or misdemeanor offenses will preclude you from participating in clinical and mandate withdrawal from the program. No course refunds are available. Please consult the program coordinator prior to registration if you have any concerns.
- Business casual dress and white lab coat or scrubs required, depending on your placement.

Select one of the following sections:

**Certification**

**PTCB Exam**

All students who successfully complete the Pharmacy Technician Program will be eligible to take the Pharmacy Technician Certification Board (PTCB) exam. For more information, visit: [www.nv.edu/non-credit/pharmacy-technician#4596417](http://www.nv.edu/non-credit/pharmacy-technician#4596417)
Health Care • Phlebotomy Technician

Phlebotomy Technician
Do you want to be an integral member of a healthcare team? Phlebotomy Technicians facilitate the collection and transportation of laboratory specimens, process Medicare and insurance claims, and have contact with diverse population groups while assuring high quality, patient safety and demonstrating strict professional behavior.

The Phlebotomy Technician program at NVCC will provide the student with 200 hours of classroom instruction, simulated lab experience and clinical validation opportunities needed to meet the growing demands of the role of the phlebotomy technician. Our coordinator will schedule your clinical experience at one of our partner facilities:

• Danbury Hospital satellite offices:
  Southbury, Danbury, Ridgefield, Brookfield
• The Hospital of Central Connecticut, New Britain

Clinical schedules are daytime hours, typically 7:00 am - 3:00 pm, Monday through Friday for 2 - 3 weeks. Clinical hours and days may vary with the location assignment. Evening hours are not available. Textbooks are included in the cost of the course.

Uniforms, your choice of solid color v-neck scrub top and matching pants, along with clean shoes/sneakers, are required to be worn for all classes, labs, and clinical. Uniform must be washable. No sweats, spandex, or leggings will be allowed.

Here is what our students say...

The teachers were very professional and knowledgable. I would highly recommend NVCC to everyone and anyone that is interested in returning to school.”

Joseph Aubin
NVCC Student
Phlebotomy Technician

CRN 4144 200 hours

Professional Bartending with S.M.A.R.T. Certification

Bartending offers an opportunity to start a new career or a chance to supplement your income with a part-time position. This professional bartending course includes the state and national S.M.A.R.T. certification (Servers and Managers Alcohol Responsibility Training) recognized by the Connecticut Department of Liquor Control and police departments. Servers of alcohol are taught to serve responsibly, how to spot signs of intoxication and how to respond appropriately. Students will learn to make more than 100 drinks, from gin and tonics to daiquiris. Instruction focuses on opening and closing procedures, product knowledge, speed of preparation and people skills.

Upon successful completion of the course, students receive a certificate and will have acquired the skills employers require to work in any environment that serves liquor, including restaurants, clubs, hotels and catering companies. Cost includes the textbook and materials. No alcohol is served in this course. Bring your lunch.

Certified Wedding Planner

Have you always dreamed of a career as a successful wedding planner? This online course will start you on your way! This comprehensive program covers everything an aspiring wedding planner needs to know to get started in the business. Whether you plan on working part-time, planning only a few weddings a year, or a full-time career, this program will provide all the tools necessary to work as a professional wedding planner or start your wedding planning business.

Ready to get started?

1. Register with the Office of Lifelong Learning, 203-575-8029.
2. Email Lisa Crick, program coordinator, for course information at lcrick@nv.edu. Include your name, mailing address, phone number, email address and the name of the course for which you have registered.

For a more detailed course description, content outline and technical requirements please visit: nv.edu/wedding.

Online / self-paced 340 hours
Open Registration $1,595

Career Spotlight

Bartender

The Connecticut Department of Labor (CTDOL) reports the average annual income for a Bartender is $20,695. The CTDOL lists Bartenders as an In Demand Openings job and states employment in this occupation is expected to grow faster than average, and the number of annual opening will offer very good job opportunities.
Hospitality

Food Safety Certification
This course is designed for non-degree students employed in the food service industry. Learn aspects of applied commercial food service sanitation resulting in a nationally recognized certification as required by Connecticut law. Prevention of food-borne illness, sanitary procedures in the protection and service of food to the public, laws and regulations, sanitary design and employee training will be discussed.

The textbook, Food Safety Certification: Servsafe Coursebook, 6th Ed., w/Exam, ISBN 978013383503 may be purchased at the George D. Yonan Memorial Bookstore (see page 55). This course requires students to access and participate in learning activities online. Computers are available on campus.

Manufacturing

NVCC is committed to providing the educational and training opportunities for employees and potential employees that will meet the needs of manufacturers in our region. In association with the Advanced Manufacturing Technology Center, we are proud to offer courses on a variety of manufacturing topics.

Manufacturing courses will be offered this fall at W. F. Kaynor and Henry Abbott Technical High Schools. Topics will include Blueprint Reading, Metrology, Math, Tool and Die Metal Stamping Technology, CNC Machining, Principles of LEAN, Quality Control and Inspection. If you are an employer with employees that need some additional knowledge or skills, please contact Sharon Lutkus at 203-596-2197 or slutkus@nv.edu.

Manufacturing Math I
Gain the knowledge to apply mathematics and its applications in the manufacturing environment. Learn fractions, decimals, tolerances, percentages, power and roots, metric system, positioning, ratios and proportions. The textbook is included in the cost of the course.

This program (or event) is funded (in whole or in part) by the Connecticut Advanced Manufacturing Initiative, TC-26448-14-60-A-9, as implemented by the United States Employment and Training Administration.
Manufacturing

Metrology
In manufacturing hundreds and thousands of parts are produced each week. Most are produced by machines that are run by computers that have been programmed by specially trained operators. Over time, the producing machinery may shift slightly, become dull, or lose alignment. Metrology is the technology that assures that parts are produced to precise specifications and ensures a quality product. This course will provide hands-on practice with the instruments required to make these important measurements. The textbook is included in the cost of the course.

Introduction to Tool & Die and Metal Stamping Technology
Tool and Die specialists are in tremendous demand by manufacturing companies. A Tool & Die Specialist is a class of machinist in the manufacturing industry that can make jigs, fixtures, molds, machine tools, gauges and other tools used in manufacturing processes. This course will introduce the students to this specialized field of manufacturing called Tool and Die making, along with an in-depth training on the set up and operation of the Waterbury Farrell Deep Draw Press used with progressive die technology, a crucial component of the Tool and Die industry.

Manufacturing

**Introduction to Lean and Quality Control**
Introduction to Lean Manufacturing provides the student an overview of the history of lean manufacturing and the theory & objectives. Students will learn the tools of lean manufacturing, and review the Toyota Production System along with a Kaizen Event. The course includes the following topics: history of lean manufacturing, Toyota Production System [TPS], lean principles, root cause analysis [RCA], 5S, and Kaizen.

CRN 4292 8 sessions
Kaynor Technical High School
Tuesday & Thursday, November 3 - December 3
No class 11/26
5:30 pm - 8:30 pm
Instructor: Staff $325

**Principles of Quality Control**
An overview of the tools and techniques required in contemporary quality systems. Topics covered include determination of process capabilities, estimation of process standard deviation from samples data, use of control charts and calculation of probability of simple events. A textbook is required and must be purchased by the student. Please see page 55 for bookstore information.

CRN 4271 15 sessions
Abbott Technical High School
Thursday, September 3 - December 17
No class 11/26
7:15 pm - 9:45 pm
Instructor: Staff $429

**Quality Control Inspection**
This course will provide an understanding of the processes and procedures needed for inspection and testing of materials and product. Topics will include: inspection criteria, concepts of quality, tools and methods of accurate measurement, gage repeatability and reproducibility (R&R), data collection techniques, report formats, Pre-Production and Post-Production Approval Process (PEPAP), and more. Students will gain an understanding of the importance, methods, and reporting techniques required to ensure quality production.

CRN 4252 8 sessions
Kaynor Technical High School
Wednesday, October 14 - December 9
No class 11/25
5:30 pm - 8:30 pm
Instructor: Staff $325
Manufacturing

OSHA 10 Hour General/Manufacturing
This course for private sector personnel covers OSHA policies, procedures, and standards, as well as general industry safety and health principles. Topics include scope and application of the OSHA general industry standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. Upon successful course completion, the student will receive an OSHA general industry safety and health 10-hour course completion card. Materials included.

CRN 1857 2 sessions
Saturday, January 9 - January 16, 2016
9:00 am - 4:00 pm • Rm: T515
Instructor: Mike Devivo $325

Career Spotlight
Manufacturing
Manufacturers are one of the most sought-after workers in Connecticut. The Connecticut Department of Labor projects a 2.6% growth in manufacturing jobs by the year 2022 with an average of 2434 job openings annually.

For workers with experience in manufacturing, it presents an opportunity to modernize your skill sets, making you more attractive to employers in today’s job market. If you’re new to the workforce, the AMTC certificate will have you confident and prepared to work in a manufacturing environment in one year. Regardless of your background, NVCC has manufacturing education to meet your career goals.
Take ed2go courses from the comfort of your home or office at the times that are most convenient for you. All courses run for six weeks with two new lessons each week. Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion area, supplementary links and more.

Manufacturing Fundamentals
Learn the basic skills required to work in the manufacturing field. Discover the role of production design, process planning, and the heart of 13 different manufacturing processes. Understand why facility location and plant layout decisions are so vital and learn how job design helps you accomplish company goals and achieve worker satisfaction.

Purchasing Fundamentals
Discover and master the fundamentals of purchasing by understanding your strategic and tactical roles as a purchasing practitioner. Improve your company's bottom-line profitability by learning and implementing key concepts such as negotiation, supplier sourcing and qualification, outsourcing and make-or-buy analysis. Learn the basics of supplier partnerships, capital budgeting and green buying.

Supply Chain Management Fundamentals
You will learn which actions to take when confronted by almost any situation. You'll understand how to represent top management's interests on the shop floor, and you'll know how to translate such initiatives as strategic planning, sales and operations planning, and new product introduction into achievable, operational plans. The course also includes essential information to help you prepare for internationally recognized supply chain and materials management certification examinations.

Six Sigma Total Quality Applications
Learn how to effectively apply the elements and methods of Six Sigma. Understand how more than 25 tools and methods relate to the DMAIC (define, measure, analyze, improve, and control) model. Determine the relationship of basic statistics to Six Sigma and learn about the Six Sigma business case including strategic planning, the voice of the customer (VOC), quality function deployment (QFD), benchmarking, and financial investment methods.

Manufacturing Applications
Learn to apply the principles and concepts of manufacturing. Discover the nature of strategy and learn how it leads to the development of manufacturing strategy. Understand the purpose of customer demand forecasting and find out what forecasting methods are suitable for which situations.

NVCC Learn 2 Earn!   nv.edu/nc • 203-575-8029 • nc@nv.edu
Motorcycle Rider Safety

NVCC - Waterbury Training Site

Motorcycling is one of the most exciting forms of transportation around! Part of the thrill of motorcycling is the knowledge that you are totally responsible for every action taken, from timing each shift to keeping a keen eye out for other motorists. To understand these responsibilities and get the most from your experiences, a Rider Education Course is the place to start. CONREP is a statewide program directed by the Connecticut Department of Transportation (DOT).

We provide quality motorcycle training for new, intermediate, and experienced riders.

**Basic Rider Course (BRC):** designed to teach individuals with little or no riding experience what is involved in operating a motorcycle or scooter safely. The BRC begins with the development of the fundamental skills: straight-line riding, braking, turning, and shifting. It then expands on these basic skills into more advanced street riding techniques. This course consists of 22 hours combined classroom and on-cycle instruction, with periodic breaks. Successful completion of this course fulfills the requirements of the State-approved Basic Rider Course for licensing. On-cycle testing is completed at NVCC as part of this course. The written and vision tests are taken at the DMV. Motorcycles or Scooters and helmets are provided. Participants must have a valid CT driver’s license (a motorcycle learner’s permit is not required to take this course). Fee: $200

**Intermediate Rider Course (IRC):** designed for riders with some experience who are currently riding their own motorcycle/scooter. Riders will improve skills in braking, cornering, evasive maneuvers, and learn ‘street strategies’ necessary for survival. The course consists of 10.5 hours combined classroom and on-cycle instruction, with periodic breaks. Successful completion of this course fulfills the requirements of the State-approved Intermediate Rider Course for licensing. Participants must have a valid Connecticut motorcycle permit and use their own street-legal (no straight pipes) motorcycle or scooter that is registered and insured in the participant’s name. You must ride to class, no hauling bikes/scooters to class on a trailer or truck is permitted. Bikes will be inspected. You must provide proof of your current motorcycle permit, registration, and insurance card. Fee: $115

Please see page 44 for important registration and class information.

Student information packets, course schedules, registration and waiver forms are available to print online at nv.edu/motorcycle, by calling 203-575-8029 or emailing nc@nv.edu to request a packet be mailed or faxed to you.
Motorcycle Rider Safety

**Experienced Rider Course (ERC):** Even if you've been riding for some time, there's always something new to learn in this 6.5 hour on-cycle course. Using your own registered, insured, street legal motorcycle/scooter (bike will be inspected) for the ERC, you will have the opportunity to fine tune your riding skills during advanced maneuvers such as stopping in the shortest distance, cornering, swerving, tight turns, and other evasive skills. Riders must provide proof of a valid motorcycle license, current registration and insurance card in the participant’s name. You must have a minimum of 500 miles, or more than 6 months riding experience. Passengers may participate in the course also. **Fee: Rider: $85 / Passengers: $20**

**Private, semi-private, and group lessons** may be scheduled by contacting the program coordinator, John Purdy at 203-575-8123 or jpurdy@nv.edu.

**Important Registration & Class Information:**
Registration is on a first-come, first-served basis. We must receive the Registration Form, the Liability Waiver Form, and full payment to secure your seat. All forms are available at nv.edu/motorcycle or by contacting the office at 203-575-8029 or nc@nv.edu.

Classes run rain or shine from April through November. Requests for transfer or withdrawal must be received in writing a minimum of three business days (72 hours) prior to the start of class. Full attendance is mandatory. **You must be on time for class. If you are late, you will not be permitted to enter and you will not be refunded the course fee.** In order to complete your training, you will need to register for another course section and pay the fee again.

Student information packets, course schedules, registration and waiver forms are available to print online at nv.edu/motorcycle, by calling 203-575-8029 or emailing nc@nv.edu to request a packet be mailed or faxed to you.
Take ed2go courses from the comfort of your home or office at the times that are most convenient for you. The instructor-facilitated online courses are informative, fun, convenient, highly interactive, and affordable.

Prices start at $100 per course. All courses run for six weeks (with a two-week grace period at the end). Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links and more.

Some courses may have prerequisites or require software to be installed on your computer before you begin the course. Check the requirements tab for each course before you register.

Courses listed throughout the catalog are just a sample of over 300 courses available. For a complete course catalog, descriptions, course numbers, pricing, outlines, and requirements visit ed2go.com/nvcc and click on Courses.

Course dates:
Section 1: 9/17 - 11/7
Section 2: 10/14 - 12/4
Section 3: 11/12 - 1/2/16
Section 4: 12/10 - 1/30/16

To request CEU’s for qualifying courses contact 203-596-8711 or Lcrick@nv.edu.

Real Estate

Real Estate Principles and Practices
Real Estate sales in Connecticut are on the rise! Take this real estate salesperson and broker pre-licensing course and start your new career today. It provides a comprehensive introduction to the real estate business for those interested in learning more about this exciting industry. You will be introduced to brokerage, listing agreements, buyer/seller representation, ownership of real estate, legal descriptions, taxes, contracts, liens, transfer of title and more.

Those students intending to sit for the state of Connecticut licensing exam must attend 60 hours and pass this course with a grade of 70 or better. You may take the Real Estate Principles & Practices course prior to 18 years of age, however you must be at least 18 years old to receive a real estate license. A high school diploma or a GED is not required for someone to obtain a real estate salesperson license. The textbooks are included in the cost of the course and provided at the first class session.

CRN 4119 18 sessions
Wednesday, September 9, 2015 - January 13, 2016
No class 11/25
5:30 pm - 9:30 pm • Rm: K710
Instructor: Donna Matula $605

Basic Appraisal Principles
Are you interested in becoming a Real Estate Broker? This course is approved by the Real Estate commission as a prelicensing course for brokers. Approval for appraisers is pending approval with USPAP, Uniform Standards of Professional Appraisal Practice. Students will discuss real property concepts and characteristics; legal considerations associated with defining, using, and transferring real estate; external factors that influence value; real estate finance; classic economic principles and their application to real estate; real estate markets and analysis; and ethics in appraisal. Through theory, case studies, and examples, this course offers practical application of appraisal principles. Students must attend at least 30 hours and receive a passing grade of 70 or higher to receive a course certificate. The textbooks are included in the cost of the course and provided at the first class session.

CRN 4121 5 sessions
Saturday, October 31 - December 5
No class 11/28
9:00 am - 4:00 pm • Rm: T650
Instructor: John Yoegel $550

Career Spotlight
Real Estate
Real Estate Sales: The Connecticut Department of Labor (CTDOL) reports the average annual income for a Real Estate Sales Agent is $51,864 and employment in this occupation is expected to grow about as fast as average, but the number of annual openings will offer good or favorable job opportunities.

Real Estate Broker: The Connecticut Department of Labor (CTDOL) reports the average annual income for a Real Estate Broker is $72,759 and employment in this occupation is expected to grow more slowly than average, and the number of annual openings will offer limited job opportunities.
Real Estate Relicensing Seminar for Salespersons and Brokers

Saturday, October 17, 2015
$35 per course

Complete Your 2016 Real Estate Continuing Education Requirements in one day!
Salespersons and brokers must complete 12 hours of continuing education every biennium. We will offer four, 3-hour courses in one day. At the time of publication course topics were being reviewed for approval by the Connecticut Real Estate Commission and will be announced at nv.edu/realestate.

Take just one or up to all four!
• Includes Mandatory CT Real Estate Law Update
• Includes NAR Ethics Course
• Call 203-575-8029 for detailed schedule and additional course offerings.

Deadlines for the 2014-2016 Real Estate Continuing Education Cycle:
Brokers: March 31, 2016
Salespersons: May 31, 2016

Appraisers
Please refer to: www.ct.gov/dcp for continuing education requirements.
Please note that courses offered on this page are not approved for appraiser continuing education.
Security Officer

Security Officer Certification with Finger Printing
Complete this one day, 8-hour course required to be a security officer in Connecticut. Your training will include a day packed with small group discussion and simulated experiences as you learn about private security, search and seizure, basic first aid and many other public safety issues.

Students are required to complete a written exam with a minimum score of 75%. A State-issued (any U.S. state) photo ID is required in class and it is suggested that students bring a lunch.

Upon successful completion, to be eligible to obtain employment, students will need to apply for a Security Officer Identification Card from the Connecticut Department of Public Safety, for an additional fee (approximately $170). Applicants are required to include one set of fingerprints with their application; which will be completed in class by an authorized officer. Full application requirements will be reviewed in class. Students with criminal convictions may have difficulty obtaining State Certification and employment.

Please note that full attendance is required and you must be on time. If you are late you will be turned away at your own expense. No refunds are given for tardiness.

For more information on the Security Officer Identification Card, please visit the Connecticut Department of Public Safety website, www.ct.gov/DPS, Special Licensing and Firearms.

Here is what our students say...

“...The class has given me an extremely positive outlook for a security job. The teacher was positive and outgoing and created a fun and positive environment to learn in.”

Career Spotlight

Security Officer

Security Officer positions are available in many businesses such as security agencies, retail stores, hospitals, schools, banks, housing complexes, and construction businesses. The industry will continue to grow as companies are becoming more creative in their service and use of manpower. The Connecticut Department of Labor (CTDOL) reports the average annual income for Security Guard is $26,924. The CTDOL lists Security Guard as a Hot Job and states employment in this occupation is expected to grow about as fast as average, and the number of annual openings will offer excellent job opportunities.
An Introduction to Teaching ESL/EFL
Discover innovative ways of teaching vocabulary and grammar, listening and speaking and reading and writing.

Creating K-12 Learning Materials
Learn how to create and self-publish workbooks, lab manuals, booklets, activity kits, visual aids, manipulatives, and other powerful instructional aids.

Differentiated Instruction in the Classroom
Improve your ability to teach diverse learners with real-world examples from elementary, middle, and high school classrooms.

Empowering Students With Disabilities
Explore common disabilities you’ll encounter in the classroom and master techniques for promoting academic, behavioral, and social skills in students with special needs.

Creating Classroom Centers
Learn how to create engaging, easy-to-maintain classroom center activities that boost independent learning while increasing small-group instruction time.

Guided Reading and Writing: Strategies for Maximum Student Achievement
Get the professional development training you need to improve student literacy as an accomplished teacher shares the secrets of turning guided reading strategies into opportunities for teaching writing.

Integrating Technology in the Classroom
In this professional development course for teachers, learn the secrets of technology integration in the classroom by gaining the skills educators need to use tools such as wikis, podcasts, and blogs effectively.

Microsoft PowerPoint 2010® in the Classroom
Learn how to motivate students and enrich lessons by bringing Microsoft PowerPoint 2010 into your classroom.

Microsoft Word 2010® in the Classroom - New!
Explore fun and creative lesson plans for introducing Word to your students.

Singapore Math Strategies: Model Drawing for Grades 1-6
Get the training you need to start teaching model drawing, the powerful Singapore Math strategy that gives word problems a visual context.

Spanish in the Classroom
Learn the essential Spanish for teachers so you can communicate effectively with your Spanish-speaking students and parents.

Teaching Adult Learners
Learn powerful techniques for reaching and motivating adult learners in today’s student-centered classroom.

Teaching ESL/EFL Grammar
Learn new methods for teaching English grammar that will both engage and challenge ESL/EFL students.

Teaching Smarter With SMART Boards
Master the use of SMART Board and SMART Notebook technology so you can create powerful interactive lessons that capture your students’ attention.

This is a sample of Teaching and Education courses available.
To request state of Connecticut teacher’s CEU’s for qualifying Teaching and Education courses, contact Lisa Crick:
lcrick@nv.edu or 203-596-8711.

SAT Preparation

Ready. Set. Go. Prepare Now & Test Better

Anticipated SAT Test Dates: Oct. 3, Nov. 7, Dec. 5

The SAT (The Scholastic Aptitude Test) tests your knowledge of reading, writing and math. Most colleges and universities use the SAT as part of their admission process. Let our experienced educators help you prepare to do your best on test day with our math and critical reading/writing workshops. The textbook is included in the cost of the course.

Critical Reading/Writing Workshop
CRN 4129 6 sessions
Tuesday, September 29 - November 3
7:15 pm - 8:45 pm • Rm: K700
Instructor: Ann Rodgers $152

Math Workshop
Prerequisite: Successful completion of one full year of Geometry.
CRN 4127 6 sessions
Tuesday, September 29 - November 3
5:30 pm - 7:00 pm • Rm: K700
Instructor: Michelle Allen $152

ACCUPLACER®
Placement Test Prep - A+dvancer™

Will you be starting college this spring?
Accuplacer® placement tests are mandatory at most Connecticut colleges, including NVCC. Your scores will determine the math and English classes for which you may register.

Want to save time and money?
Don’t spend time and money on classes you may not need. Review math and reading with Advancer™ online courses, improve your placement scores and gain entry into higher level coursework.

Courses are designed to provide you with the lessons you need. Easy-to-use online subject review and practice tests will help you get prepared to succeed on the ACCUPLACER® placement test.

Arithmetic Review
Open registration, online, $59

Elementary Algebra
Open registration, online, $59

Reading Comprehension
Open registration, online, $59

Ready to Register?
Step #1: Register for these placement test review courses by mail, phone or fax. See pages 59-60 for details and registration form.

Step #2: Email to receive your course access information to: lcrick@nv.edu. Include the following:

• Student’s name
• Email address
• The name of the course for which you registered
• Student ID (if known)
Welding

Welding is a specialized skill that serves a variety of industries and is used in many ways throughout the world. Career opportunities include working in:

- Welding shops
- Manufacturing of metal goods
- The petroleum and natural fuel extraction industry
- Construction
- Plumbing and pipe welding
- Plant maintenance
- Automobile manufacturing and repair
- Ship building
- Aerospace
- Railroad construction and repair
- and many more...

There are many career paths for a skilled welder and at NVCC you can earn the qualifications you need to start your career in this exciting field! You may want to sample three common welding techniques in our Welding Processes course or pursue advanced skills and certification in specialized welding techniques. Take advantage of entry level and advanced courses in Gas Tungsten Arc Welding (GTAW), Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), and an advanced course Flux Core Arc Welding (FCAW), right here in our state-of-the-art lab at NVCC. Our advanced level courses will help you prepare for certification in accordance with American Welding Society standards. If you are not sure of what class to take or what technique will meet your career goals, please attend our free information session.

**Welding Information Session - Free!**
This free session is for anyone interested in learning more about the welding profession and will provide an explanation of the welding techniques offered and a tour of our state-of-the-art lab.

Welding

Welding Processes
This course is designed for the beginner and provides an introduction to three processes widely used in the welding field: Shielded Metal Arc Welding (SMAW/ Stick), Gas Metal Arc Welding (GMAW/MIG) and Gas Tungsten Arc Welding (GTAW/TIG). You will learn the basics of welding safety, cutting, equipment and materials used in these processes in our state of the art welding lab. The cost of the course includes all personal safety gear and practice materials.

CRN 4138 3 sessions
Saturday, September 19 - October 3
9:00 am - 3:30 pm • Rm: T403
Instructor: Richard Munroe $799

Basic Gas Metal Arc Welding (GMAW/MIG)
GMAW is a process used mostly in manufacturing and repair shops. Students will be introduced to: welding safety, shield gases, equipment / metal selection and preparation. The required safety gear, textbook, and welding supplies are all included in the cost of this course and will be provided at the first class.

CRN 4139 15 sessions
Monday & Wednesday, October 5 - November 23
6:00 pm - 9:00 pm • Rm: T403
Instructor: Angelo Petrolle $1,900

Advanced Gas Metal Arc Welding (GMAW/MIG)
This advanced course in GMAW will prepare the student for welding certification. Students will be tested in accordance with the American Welding Society (AWS) D1.1 3G certification. Included in the cost of the course is NVCC certification lab materials and OSHA 10 Safety Certification.

Prerequisite: Basic GMAW or permission of the instructor

CRN 4140 15 sessions
Monday & Wednesday
December 7, 2015 - February 1, 2016
No class 12/23, 1/18
6:00 pm - 9:00 pm • Rm: T403
Instructor: Angelo Petrolle $2,230

Here is what our students say...

“Very knowledgeable instructor who’s able to give each student the personal attention they need to improve their welding skills. I will not hesitate to return to NVCC to learn another type of welding.”

Trevor Dinwoodie, NVCC Student
GTAW Advanced

Approved for WIA & VA Funding
Approved for WIA & VA Funding

NVCC Learn 2 Earn! nv.edu/nc • 203-575-8029 • nc@nv.edu
Basic Gas Tungsten Arc Welding (GTAW / TIG)

GTAW, also known as TIG welding, is primarily used to weld stainless steel, aluminum, titanium and other nonferrous metals. It is used in various industries, including manufacturing, aerospace and piping. Students will be introduced to: welding safety, electrodes, shield gases, equipment, plasma cutting, and metal selection and preparation. The required safety gear, textbook, and welding supplies are all included in the cost of this course and will be provided at the first class.

CRN 4141 15 sessions
Tuesday & Thursday, October 6 - November 24
6:00 pm - 9:00 pm • Rm: T403
Instructor: Joseph Demeter $1,900

Advanced Gas Tungsten Arc Welding (GTAW / TIG)

This advanced course will prepare the student for welding certification. Students will be tested in accordance with the American Welding Society (AWS) D17.1, 2F Certification. Included in the cost of the course is NVCC certification lab materials and OSHA 10 Safety Certification.

Prerequisite: Basic GTAW (TIG) or permission of the instructor.

Select one of the following sections:

CRN 7191 15 sessions
Monday - Thursday, July 20 - August 12
6:00 pm - 9:00 pm • Rm: T403
Instructor: Joseph Demeter

CRN 4142 15 sessions
Tuesday & Thursday
December 8, 2015 - February 2, 2016
No class 12/24 & 12/31
6:00 pm - 9:00 pm • Rm: T403
Instructor: Joseph Demeter $2,230

Here is what our students say...

“The class was awesome; it gave me a quick overview of the three types of welding. Joe (Demeter) was a great instructor and kept us involved. I will most definitely be returning for more welding.”

NVCC Non-Credit Program Staff

NVCC Learn 2 Earn! nv.edu/nc • 203-575-8029 • nc@nv.edu
Duplicate Non-credit Certificates

Naugatuck Valley Community College issues initial non-credit certificates at no cost to you upon successful completion of all your program requirements. You are responsible for the safekeeping of this certificate. A duplicate or replacement certificate may be obtained for a processing fee of $15. To comply with FERPA laws, all requests must be in writing and signed by the student to whom the certificate was issued. The following information must be included:

- Full name
- Name at the time of the course
- Current mailing address
- Current phone number
- Student ID or birthdate and last four digits of Social Security number
- Course or program name
- Semester and year course or program was completed
- Signature (not electronic) and current date

This process requires verification of successful program completion and may take up to three weeks. Mail the requests to:

Naugatuck Valley Community College
Kinney Hall, Room K406
Attention: Duplicate Certificate Request
750 Chase Parkway, Waterbury, CT 06708
or fax to 203-575-8243
Certificate Completion
Certificate requirements for completion are stated with the appropriate programs in the catalog. If you have prior experience and wish to discuss a course substitution, please contact the program coordinator. See page 54.

Changes & Cancellations
The College reserves the right to make changes to the information listed in this publication or to cancel courses due to insufficient enrollment or other reasonable causes. Full refund is made if the College cancels the course. (See refund policy.)

If a course is cancelled, you will be notified by phone, email and/or mail prior to the starting date (provided we have your most up-to-date contact information). If your instructor cancels a class for weather-related or other emergency reasons, he or she will implement the communication plan discussed with students the first class.

College Closings & Delays
College closings due to inclement weather are announced over local AM/FM radio/TV stations, on the college website (nv.edu), on the college’s main phone line (203-575-8000) and a text message is sent to everyone who is registered through the myCommNetAlert System.

Likewise, in the event of an early closing, the same communication will occur. If the college has a delayed opening, all classes that begin before the delayed opening time will not be held that day and will be rescheduled at another time.

Danbury and off-site cancellations: If NVCC cancels or delays classes, this applies to Waterbury and Danbury Campuses as well as off-site locations. In the event of cancellation or delay of Danbury classes only, an announcement will be posted on nv.edu/Danbury or you may call 203-797-9361 for an automated message.

Discrimination
Naugatuck Valley Community College does not discriminate on the basis of race, color, religious creed, age, sex, national origin, marital status, ancestry, present or past history of mental disorder, learning disability or physical disability, sexual orientation, gender identity and expression or genetic information in its programs and activities. In addition, the College does not discriminate in employment on the additional basis of veteran status or criminal record. The following individual has been designated to handle nondiscrimination policies regarding disability policies: Robert Divjak, Director of Facilities/Section 504/ADA Coordinator, Room C216, Naugatuck Valley Community College, 750 Chase Parkway, Waterbury, CT 06708; 203-575-8235. The following individual has been designated to handle nondiscrimination policies regarding disability policies: Jacquie Swanson, Associate Director of Human Resources/Title IX Coordinator, Room K704, Naugatuck Valley Community College, 750 Chase Parkway, Waterbury, CT 06708; 203-575-8043.

Financial Assistance
Non-credit courses are self-supporting and are not supported by taxpayer dollars. Costs vary. State law does not allow us to exempt senior citizens.

Educational expenses may be allowed as a tax deduction. Consult with your accountant to verify deductions. Specific information on veterans benefits, employer reimbursement, private lending institutions, tuition installments letters and NVCC payment plans is available on page 4.

Refund Policy
Withdrawal and refund requests must be received three business days (72 hours) prior to the beginning of class unless stated otherwise in the course description. Refunds are not granted after this deadline.

Telephone: 203-575-8029
Mail: Non-Credit Refunds, Room 407
Naugatuck Valley Community College
750 Chase Pkwy., Waterbury, CT 06708
Email: nc@nv.edu

If there is a course cancellation due to insufficient enrollment, students will be notified by phone, mail and/or email. Please make sure when registering that your contact information is up-to-date. We would like to offer you the opportunity to transfer to another section, if available, or to another class of your choosing. If we have not heard from you within 7 business days, a refund will automatically be processed. Please allow 2-4 weeks for processing. The person registered in our records system is the person who will receive the refund.

Students with Disabilities
If you are a student with a learning disability that may require an academic adjustment, please contact our staff at 203-575-8161. Students with all other disabilities must contact Laurie Novi at 203-575-8035. Adjustments will only be provided to those students who have completed the disabilities disclosure process. Please contact the appropriate office at least three weeks prior to the course. Failure to do this may result in a delay or inability to provide the requested adjustment(s).

Tuition Installment Plans
An Installment Payment Plan is available for many longer, more expensive programs. Please visit nv.edu/nc and the specific program page for more information.

Parking & Facilities

Parking is available throughout the campus. Watch for signs and park in student-designated spaces only. Carpooling is encouraged.

The room temperature in our buildings is subject to variation and cold drafts are common, especially in the colder months. Temperature control is not available within individual classrooms. Please dress accordingly. Many students have found layering with a sweater or jacket is necessary, even in summer.

See page 58 for directions.

Park in student-designated spaces only.

Parking for Danbury Campus: See page 58.
Directions to NVCC

NVCC Waterbury Campus
750 Chase Parkway, Waterbury

Route 8
Take the Danbury exit onto Rt. I-84 West, then first exit off I-84 (exit 18). Bear left to light and take a left. Go to second light for East Entrance or third light for West Entrance.

Route I-84 West
Take exit 18, bear left to light and take a left. Go to second light for East Entrance or third light for West Entrance.

Route I-84 East
Take exit 18. At light take a right and at next light take a right. Go over bridge and at light take a left onto Chase Parkway. Go to first light for East Entrance or second light for West Entrance.

Parking for Waterbury Campus
Visitor parking spaces are available outside of Kinney Hall. Students and visitors may park in any legal parking spot in the garage or open lots that is not designated as faculty or staff.

NVCC Danbury Campus
183 Main Street, Danbury

Route I-84 West
Take exit 5. Turn right at the light onto N. Main St./Main St., CT-53, for 1.1 miles. At the intersection of Liberty and Main streets, 183 Main St. is on the left.

Route I-84 East
Take exit 5. At end of ramp, proceed through stop sign straight to light. Turn right onto Main St./CT-53 for 0.8 mile. At the intersection of Liberty and Main streets, 183 Main St. is on the left.

Parking for Danbury Campus
Free parking is available for currently registered NVCC students and teaching faculty at the Patriot Garage located on the corner of National and Delay Streets. Patriot Garage parking permits are available at the NVCC Danbury administration office.

Public transportation is readily available for both locations.

Waterbury Campus
Offices & Classrooms: 750 Chase Parkway

Danbury Campus
Offices & Classrooms: 183 Main Street
Non-Credit Registration

Customer Information
Payment must be made at the time of registration. Registrations without payment are subject to cancellation. Students are responsible for the applicable charges should they fail to withdraw from the class(es) they have registered for within three business days (72 hours) prior to the start of class.

With the exception of walk-in registrants paying with cash, a receipt will be mailed to you upon completion of the registration process. If you do not receive a receipt within five business days, call the Cashiers' Office at 203-575-8055.

Refund Policy - see page 56.

The College has taken steps to ensure the confidentiality of your registration information including name, address, phone number, date of birth and Social Security number. College policy is to collect student Social Security numbers as our registration system relies on them for identification purposes only. If you do not have a Social Security number by reason of foreign citizenship, please contact us at 203-575-8029.

Third-party payments - For information about paying for an employee to attend a course see page 4 or call 203-575-8029.

Mailing / Fax Instructions:

1. Complete the registration form; include birth date, social security number, citizenships status, and the CRN for each class (see course catalog for CRN number). Please include phone numbers and email so that our office may contact with room changes and cancellations.

2. Determine your payment method; check, money order, or credit card (MC/Visa/Discover only). Payment must be provided at the time of registration. If using a credit card, please provide the information requested on the form and write clearly to ensure registration.

3. Choose one method:
   - ☐ Mail form with check, money order or credit card # (MC/Visa/Discover only), expiration date and 3 digit security code to: NVCC, Room K407, Office of Non-Credit Lifelong Learning Registration, 750 Chase Parkway, Waterbury, CT 06708-3011
   - ☐ Fax the form to with credit card (MC/Visa/Discover only) information to 203-575-8277.

4. The student ID number is assigned to each person registered at NVCC or any other Connecticut Community College. If you are a first time student, an ID is generated at the time of registration and becomes your permanent student ID number. It will appear on your course receipt. Please retain this number for future registrations at NVCC.
