Non-credit Lifelong Learning
Welcome! Jobs start here! nv.edu/nc

Getting a job in today's employment market requires knowledge and skills. Our non-credit programs can help you gain knowledge and develop the skills that employers are looking for right now. We offer a wide variety of courses, seminars and workshops for professional development, career training and new technologies. Courses start throughout the year and prepare you for positions in high growth fields! Career certificate programs vary from 8 hours to 15 months; most are less than 4 months.

Mission Statement:
Our mission is to support community and economic development by effecting positive change in our communities. We collaborate with community partners to respond actively to the changing workforce needs of our region. We empower individuals and businesses through quality education and training. We enrich lives with lifelong learning personal and professional development opportunities.

Accreditation:
Naugatuck Valley Community College is accredited by the New England Association of Schools and Colleges, Inc. through its Commission on Institutions of Higher Education.

Look for the E-Learning logo throughout our catalog for online, distance learning courses.
Paying for Lifelong Learning

We offer a number of options that can help you pay for your education. Tuition is due at the time of course registration. Non-credit lifelong learning courses are self-supporting and are not funded by taxpayer dollars. Costs vary and state law does not allow us to exempt senior citizens.

NVCC Payment Plans
Payment plans are available for most job training programs. The plans divide the total cost into two or three payments. Tuition must be paid in full prior to completion of the course and is subject to a $25 fee for plan initiation and $15 late fees when payments are not received on time. Please check the individual programs at nv.edu/nc or contact 203-575-8029 for payment plan availability and details.

Tuition Authorization
Some employers, professional organizations, and religious groups will pay for an employee or member to enroll in a lifelong learning program. A tuition authorization letter must accompany the student registration. This letter must be on the organization's letterhead and include: the student name, course(s) title(s) and number(s), name of the responsible party, where the invoice should be sent, and a statement of promise to pay noting the tuition amount.

Employer Reimbursement
Your employer may provide educational reimbursement programs to their employees. Check with your human resources director to see if you qualify for tuition reimbursement within your organization.

Federal & State Financial Aid
Federal financial aid does not support non-credit programming. The Department of Labor and the Northwest Regional Workforce Investment Board administer a variety of programs for unemployed, underemployed, displaced workers, youth, and others. Please contact the American Job Center in your area directly to see if you qualify. Waterbury: 203-574-6971 or Danbury: 203-730-0451

Veterans' Benefits
Veterans' benefits vary. If you are interested in using veterans' benefits for your non-credit program please contact: Debbie DiCicco at 203-575-8006 or ddicicco@nv.edu.

Private Lending Institutions
Personal student loans may be offered through private banks and credit unions. You will want to check with your own lenders about specific plans and loan rates and be sure this will meet your needs.
Program Information • Job Placement

Program Information Sessions FREE!

These free sessions are offered to provide you a chance to come explore the numerous short-term job training programs that are offered at NVCC. Programs range from 8 hours to 15 months in length and meet on varying day and evening schedules. Payment options and resources may also be discussed. Registration is requested to be sure that appropriate staffing is available and in case of emergency cancellation of a session. Learn about the following certificate programs:

- Administrative Office Professional
- Agriculture
- Bartending
- Bookkeeper
- Central Sterile Processing Technician
- Food Safety
- Manufacturing
- Medical Administrative Assistant
- Medical Coding & Billing Specialist
- Microsoft Office® Essentials
- Nurse Aide Certification (CNA)

Agriculture

Plant Physiology & Propagation
Learn the fundamentals of plant growth, tissue development, and associated resistance factors. Topics will include seed/cutting propagation, the role of photosynthesis, cellular respiration, and plant transpiration. Practice propagating spring bedding plants from seeds, cuttings, and division. Learn methods of sanitation for preparing a facility for potted plants. Hands-on tutorials, in-class lab assignments and textbook will be provided.

CRN 1960  3 sessions
Thursday, January 21 - February 4
9:30 am - 3:15 pm • Rm: E532
Instructor: Christopher Tuccio
$129

Environmental Influences on Plant Growth
Discover the diversity of environmental conditions and their influence on crop growth. Learn how light, temperature, humidity and water influence crop cultivation. Study the physiological changes occurring in plants when variables are changed. Discover, through hands-on tutorials and in-class lab assignments, how these variables affect flower initiation, vegetative growth, and scheduling a crop for marketable sales. The textbook and instructional supplies are provided and included in the cost of the course.

CRN 1962  3 sessions
Thursday, March 3 - March 17
9:30 am - 3:15 pm • Rm: E532
Instructor: Christopher Tuccio
$129

Greenhouse Structures & Operational Equipment
Components of greenhouse construction and the equipment utilized within them will be explored in this class. The focus will be on the development of greenhouse structures from a business planning viewpoint with emphasis on cost effectiveness, potential crop production strategies, and retail/commercial considerations. Additional instruction will review hands-on operation of equipment utilized for heating/cooling, fertilization/irrigation, crop cultivation, and automated computer controls for greenhouses. Hands-on tutorials, in-class lab assignments and textbook will be provided.

CRN 1961  3 sessions
Thursday, February 11 - February 25
9:30 am - 3:15 pm • Rm: E532
Instructor: Christopher Tuccio
$129

Integrated Pest Management for Greenhouses
Discover the diversity of environmental conditions and their influence on crop growth. Learn how light, temperature, humidity and water influence crop cultivation. Study the physiological changes occurring in plants when variables are changed. Discover, through hands-on tutorials and in-class lab assignments, how these variables affect flower initiation, vegetative growth, and scheduling a crop for marketable sales. The textbook and instructional supplies are provided and included in the cost of the course.

CRN 1963  3 sessions
Thursday, March 31 - April 14
9:30 am - 3:15 pm • Rm: E532
Instructor: Christopher Tuccio
$129

Business Planning & Crop Scheduling
Gain an understanding of business planning methods for the greenhouse industry. Topics will cover the creation of a business plan, profit/loss accounting strategies for greenhouse businesses, and ordering techniques for future sales. The material will cover real-life examples taken from various seasons/greenhouse typologies.

CRN 1954  3 sessions

9:30 am - 3:15 pm • Rm: E532
Instructor: Christopher Tuccio
$129
Professional Bartending with S.M.A.R.T. Certification

Bartending offers an opportunity to start a new career or a chance to supplement your income with a part-time position. This professional bartending course includes the state and national S.M.A.R.T. certification (Servers and Managers Alcohol Responsibility Training) recognized by the Connecticut Department of Liquor Control and police departments.

Servers of alcohol are taught to serve responsibly, how to spot signs of intoxication and how to respond appropriately. Students will learn to make more than 100 drinks, from gin and tonics to daiquiris. Instruction focuses on opening and closing procedures, product knowledge, speed of preparation and people skills.

Upon successful completion of the course, students receive a certificate and will have acquired the skills employers require to work in any environment that serves liquor, including restaurants, clubs, hotels and catering companies. Cost includes the textbook and materials. No alcohol is served in this course. Please bring your lunch.

Select one of the following sections:

CRN 1908 2 sessions
Saturday, March 12 & March 19
9:00 am - 5:00 pm • Rm: E623

Career Spotlight
Bartender

The Connecticut Department of Labor (CTDOL) reports the average annual income for a Bartender is $20,695. The CTDOL lists Bartenders as an In Demand Openings job and states employment in this occupation is expected to grow faster than average, and the number of annual openings will offer very good job opportunities.
Safe Boating/Personal Watercraft
This course is designed to fulfill the requirements for the Connecticut Safe Boating and Personal Watercraft Certificate. Successful completion will allow the student to obtain a Connecticut Certificate of Personal Watercraft Operation, which enables him or her to operate recreational vessels up to 65 feet in length, including Jet Skis. Course fee does not include the one-time lifetime license fee. Prior to taking a boating class, each student must obtain a conservation number. See instructions on this page.

HOW TO OBTAIN A CONSERVATION NUMBER
Prior to taking the Basic Boating/Personal Watercraft course, each student must create an online account at ct.wildlifelicense.com/internetsales and obtain a Conservation ID.
- Read and follow the instructions for a New Customer to create an account.
- Print the page that includes your conservation ID number and bring it to class.
- After your class and once your score is entered into the DEEP system, you will use this account to purchase and print your certificate.

Here is what our students say...

"I learned a lot. I gained confidence and insight. The learning atmosphere was great. The location is convenient. Thank you!"

Robert Flanagan
NVCC Student
Boating Safety
Career Spotlight

Bookkeeper

The Connecticut Department of Labor (CTDOL) reports the average annual income for Bookkeeping, Accounting, and Auditing Clerks is $42,761. The CTDOL lists Bookkeeping as a Hot Job and states employment in this occupation is expected to grow about as fast as average, and the number of annual openings will offer excellent job opportunities.

Bookkeeper Certificate

Introduction

Businesses are looking for bookkeepers every day! Develop the knowledge and skills to enter this in-demand career. Learn areas of bookkeeping such as: bank reconciliations, accounts payable and receivable, payroll and much more. Build a mock business in QuickBooks® software and gain hands-on experience with the key elements of bookkeeping needed to be a vital asset to any employer.

This course is also appropriate for the entrepreneur who wants to learn to manage bookkeeping responsibilities for their own small business.

Textbook and software access are included in cost of the course.

Prerequisites: Basic reading and math skills; Basic computer and clerical skills

QuickBooks Pro® 2015

Introduction

This comprehensive class covers the fundamentals of using QuickBooks Pro® 2015 to track the finances of a small business. This hands-on approach allows the student to learn QuickBooks Pro® while actually doing the accounting for a fictional company. Students will practice how to set up a new company, work with lists, set up inventory, process invoices, work with bank accounts, process payments, enter and pay bills. Textbook and software access are included in the cost of the course.

Prerequisite: Basic computer skills

Business / Office Administration

Administrative Office Professional

The Administrative Office Professional certificate program provides a dynamic and integrated approach to the ever-changing demands and responsibilities of the office professional in today's global job market. It is designed for the student who would like to develop the essential soft skills and hard skills needed in office administration for a wide range of industries and companies. Students will learn current procedures, duties, and responsibilities applicable to an office environment. Emphasis is placed on integrating skills using appropriate software applications and developing critical-thinking, problem-solving, and decision-making in real-life applications.

Administrative office professionals perform a variety of duties necessary to run an organization efficiently. They serve as information and communication managers for an office; plan and schedule meetings and appointments; organize and maintain paper and electronic files; manage projects; conduct research; and disseminate information by using telephone, mail, websites and/or social networks, and e-mail. They also handle travel and guest arrangements.

Prerequisites: High School diploma, GED or equivalent and basic computer literacy.

CRN 1889 14 ses
Monday & Wednesday, April 27 - June 15
No class 5/30
6:00 pm - 9:00 pm • Rm: T655
Instructor: Angela Chapman, MBA $1,050

Need to strengthen your computer skills and enhance your resume?
See page 14-16 for computer technology courses.

Career Spotlight

Medical Administrative Assistant

According to the Connecticut Department of Labor, employment in this occupation is expected to grow much faster than average, and the number of annual openings will offer excellent job opportunities. The average annual salary is $38,265 and the average hourly entry level rate is $14.41.

Medical Administrative Assistant

Medical Administrative Assistants utilize their knowledge of medical terminology and health care delivery models to perform a number of administrative functions. They can work in a variety of roles and locations with job titles ranging from health unit coordinator or medical office specialist to medical secretary. Typical tasks would include scheduling tests or procedures, such as lab work or x-rays, surgeries and medical consultations based on physician orders, answering phones and directing calls, messages and reports to the appropriate staff, greeting visitors, ascertaining the purpose of the visit and interviewing patients to complete documentation, case histories or forms and process intake or insurance forms. Learn the skills needed to successfully carry out the varied responsibilities of the medical administrative assistant in almost any setting. A central focus will be on the various modes of professional communication required to keep processes running smoothly in the office or health care setting.

Pre- or Co- requisites

• Microsoft Essentials or basic computer skills (See page 14.)
• Patient Confidentiality (See page 26.)
• Customer Service and Communication in Health Care (See page 26.)
• Medical Terminology (See page 25.)

Students must complete all of the above requirements either before or simultaneously with the Medical Administrative Assistant course to be awarded the completion certificate from NVCC. If you have prior experience and wish to discuss a course substitution, please contact the program coordinator, Judith Slisz, 203-596-8743 or jlsisz@nv.edu.

CRN 1888 16 ses

Approved for WIOA Funding
Business / Grant Writing

Grant Writing for Beginners
What do the funders of grants want to know or read? How do you identify and then fulfill the parts of a request for proposal? Grant Writing for Beginners will provide the basics of writing effective proposals. You will learn how to get started and follow the process to completion. This course will discuss the parts of a generic proposal, the art of writing a cover letter, and give participants a chance to review some sample grant proposals. Your expert facilitator will share some tips for researching, cultivating contacts and meeting funders, grant reporting, and what to do if your grant proposal is rejected.

CRN 1891
Friday, March 18
9:00 am - 4:00 pm • Rm: T511
Instructor: Donna Albertario
$199

Grant Writing Workshop: Advanced
This workshop will use the basic grant writing knowledge learned in Grant Writing for Beginners to help you build the skills to write a winning proposal. You will review the sections of a grant discussed in the first session. Participants will also review online systems that are necessary to create state and federal grants. You will learn how to navigate these systems and put together all the necessary information needed to submit high level grants. Your facilitator will provide additional expertise and guide your hands-on experience.

Required: Students must bring program information to this class to enable them to actually write some components of a grant proposal.

Prerequisites: Grant Writing for Beginners or equivalent experience.

CRN 1893
Friday, April 1
9:00 am - 4:00 pm • Rm: T511
Instructor: Donna Albertario
$199

Effective Writing on the Job
Good writing can be learned and developed. This course will give you confidence in mastering the essential craft of written communication in a manner that is efficient and empowering. You will learn how to organize and plan your documents for clarity and easy reading; use words, grammar and sentence structure for maximum impact; and tailor your communications to the appropriate format and designated audience.

CRN 1897
2 sessions
Friday, April 22 - 29
9:00 am - 4:00 pm • Rm: T511
Instructor: Judith Slisz, MA, MBA
$300
Supervisory Skills Training
This course provides training to new supervisors, and current supervisors looking to refresh their knowledge and hone their skills. The goal of this program is to provide valuable strategies, insights, and tools in these essential topics: Transition to Supervision; Communication; Leadership; Motivation; and Team Building. The class includes segments on ethical behavior, conflict resolution, and best practices of performance management. As a part of this program, participants must also attend two additional follow-up sessions (at 5 weeks and 7-weeks intervals) to facilitate application of new skills, by addressing their specific challenges and concerns in an open, supportive environment.

CRN: 2253  
Friday, March 18, April 1, 9:00 am - 4:00 pm  
Friday, May 6, May 20, 9:00 am - 12:00 pm  
Room: T509  
Instructor: Angela Chapman  
$399

Managing People Successfully  New!
This six-session supervisory program is designed to increase key competencies to manage and lead others effectively. Specific competencies include performance management, emotional intelligence, delegation, coaching, and team effectiveness. Students will use self-assessment tools, real-life experiences and apply course concepts to their individual situations in a highly engaging and interactive learning environment.

CRN 2265 6 sessions  
Thursday, March 10 - April 14  
8:30 am - 12:30 pm • Rm: TBA  
Instructor: Carol Heady  
$425

Succession Planning
If your boss were to leave tomorrow could you name two qualified replacements ready to step into their role? Succession planning is a process whereby an organization ensures that employees are recruited and developed to fill each key role within the company. Learn how to build a succession plan that includes current best practices. Join your colleagues to discuss the impact of hiring practices, professional development strategies and the value of building diversity to secure a sustainable future for the organization.

CRN: 2262 1 session  
Friday, April 8  
9:00 am - 4:00 pm • Room: T515  
Instructor: Staff  
$100

Project Management
The goal of project management is "to get things done." Some projects require one task with multiple steps and others require multiple tasks with multiple steps and multiple resources. This course will provide and overview of the process and review resources to increase management effectiveness including software options. Learn some new skills to take you beyond the basic "to do" list.

CRN: 2254 2 sessions  
Friday, April 29 & May 13  
9:00 am - 4:00 pm • Room: E533E  
Instructor: Staff  
$200

Computer Technology

Microsoft Office® Essentials 2013
Word, Excel, Powerpoint, and Outlook are among the most utilized computer software programs in any work environment. Word, Excel and Outlook will be explored in depth including formulas and functions and how to create mail merges. Students will learn the basics of PowerPoint and will learn how to share data between the different MS Office programs.

**Prerequisite:** Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

**CRN 1883**
Tuesday & Thursday, March 15 - April 21
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko
$1,000

**CRN 2242**
Friday, April 1 - June 17
9:00 am - 12:00 pm • Rm: T655
Instructor: Glendia Fowler-Cartwright
$1,000

Microsoft Office® Essentials Workshops
Each of these applications workshops is a component of the Microsoft Office Essentials certificate. If you are planning on taking more than one of these individual courses you may want to consider taking the Microsoft Essentials Series for a substantial savings over taking them separately.

**Prerequisite:** Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

Microsoft Office® & Outlook® 2013
This session will focus on basic computer concepts and the powerful applications available in the MS Office components. Navigate the ribbons and menus, create folders and organize your files for efficient recall. You will learn how to send and receive messages in MS Outlook, attach a file to an email message, and save an attachment from an email message.

**Prerequisite:** Students need to be familiar with basic computer navigation; using the mouse, opening and closing windows.

**CRN 1884**
Tuesday, March 15
6:00 pm - 9:00 pm • Rm: T641
Instructor: Jan Gyurko
$99

**CRN 2243**
Friday, April 1
9:00 am - 12:00 pm • Rm: T655
Instructor: Glendia Fowler-Cartwright
$99

Want to expand your career options with specialized skills?
Consider adding Administrative, QuickBooks, Bookkeeper, Business Writing or Supervisory Skills to your resume. See pages 9 - 13 for on-campus and online learning options.

Instructor: Glendia Fowler-Cartwright $99
Creating Forms/Templates with Adobe Acrobat Pro

Adobe Acrobat Pro can help you turn your paper forms into electronic ones that can be saved after the form is completed, and emailed back to the sender. This time saving feature from Adobe, allows you to email/upload your form, and users can save it and submitted electronically. You can design a new form from scratch, convert a MS Word form to PDF, or scan a paper form and create a new electronic form from it. MS Word allows you to create electronic forms that the end-user can fill out on their computer, save it and return it electronically. You can create a form by starting with a new template, or download one, and adding content controls, including check boxes, text boxes, date pickers, and drop-down lists.

Prerequisites: Basic computer skills and knowledge of MS Word.

CRN 1895 1 session
Friday, April 8
9:00 am - 4:00 pm • Rm: T641
Instructor: Teresa Smith

Introduction to Microsoft Access® 2013

Take control of your data! In this course, you'll learn how to harness the power of Microsoft Access 2013 to organize, store, edit, manage, and report on hundreds of thousands of records. You'll start with the basics of database concepts and structure, and learn to build and customize tables to store data. With that foundation in place, you'll then learn about relational databases, and see how you can use them to build forms, generate reports, and search for data with queries across thousands of records in hundreds of tables—often with just a few clicks of your mouse! You'll also discover how to use macros to automate repetitive tasks and increase your efficiency.

Introduction to Database Development

A number of powerful tools are available to help you build databases and database applications. However, if you do not apply a systematic, structured approach to the use of those tools, you will probably produce systems that fail to meet user needs. Many projects bog down or are never completed for lack of a disciplined approach to development. This course will guide you step-by-step through all the phases of a system development project to guarantee that the resulting product will not only work as it was designed to work, but also that the design truly responds to user needs.

Introduction to PC Security
What you don't know about PC security really can hurt you! Learn why you're at risk and what you can do to protect your precious personal and business data from the outside world. This course, taught by a security expert, will quickly bring you up to speed on the fundamentals of PC and network security. Visit ed2go.com/nvcc for more information. $125

Advanced PC Security
When is hacking legal? When you use it to secure your own network. This new method of hacking, called ethical hacking or white-hat hacking, uses common and readily available hacking tools and techniques to audit your network so you can locate and close security holes. Whether you're running a small home network or you're an enterprise network administrator, this course will teach you how to better protect your system against those who wish to gain unauthorized access. $125

CompTIA Security + Certification Prep
The U.S. Department of Labor forecasts that information security analysts will be among the fastest-growing occupations through 2022. CompTIA's Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA's challenging SY0-401 exam.

This course covers the key terminology and concepts you need to know to ace the exam, all in a condensed format for rapid reading. The course provides helpful study tools including crossword puzzles, games, and practice questions to aid with learning. All of the content is geared toward helping you pass the SY0-401 exam so you can leave the test center with your Security+ certificate in hand. Visit ed2go.com/nvcc for more information. $145

CompTIA Security + Certification Prep 2
The U.S. Department of Labor forecasts that computer security and related computer-support specialties will be among the fastest-growing occupations through 2018. CompTIA's Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA's challenging SY0-301 exam.

This course, the second of two courses, reviews the key terminology and concepts needed to ace the CompTIA's challenging SY0-301 exam, all in a condensed format for rapid reading. The course provides helpful study tools, including crossword puzzles, games, and practice questions to aid your learning. All of the content is geared toward helping you prepare to pass the SY0-301 exam, so you can leave the test center with your Security+ passing score in hand. Visit ed2go.com/nvcc for more information. $145

Personal Fitness Trainer Orientation

**Online format! FREE!**

Choose one:

- Wednesday, February 3, 12:00 pm
- or
- Wednesday, March 2, 4:00 pm

Take this orientation online from home and learn what it takes to become a Personal Fitness Trainer. One of our veteran instructors will paint a clear picture of what to expect in the course and the great rewards that await you in this growing field. You will be able to ask questions and participate in a live chat with our instructor. This is accessible as an online meeting or an audio conference only. Please go to our web page at nv.edu/fitness for special access information and password.

**Personal Fitness Trainer Certification**

Come join this fun profession and be a part of what Fortune Magazine & ABCNEWS.com state is the 4th hottest job in the U.S. at a national average of $34 an hour. Employers such as 24 Hour Fitness, LA Fitness and Gold’s Gym are just a few of the club groups that seek out our graduates. Whether for a career or your own personal knowledge, get all the information you need to become a Certified Personal Trainer.

- This challenging course is taught over a 9-week period for better retention and skills competency.
- The National World Instructors Training School (WITS) exam is held on the 9th week.
- This course is formatted as a 62-hour program, comprised of 16 hours of lecture, 16 hours of hands-on practical training and a 30-hour professional practice experience (PPE).
- WITS provides a list of facilities or you can find your own and have it approved through a simple process.
- Key topics include biomechanics, exercise physiology, fitness testing, equipment usage and health assessment.
- CPR/AED certification (BLS) is needed to receive the WITS certificate. (See page 23.)

**Career Spotlight**

**Personal Fitness Trainers**

Careers in fitness and wellbeing are in demand. According to the Connecticut Department of Labor (CTDOL) employment opportunities and jobs will increase 26.6% between 2012 and 2022 in this mid-level skills field.

Employment in this occupation is expected to grow much faster than average, and the number of annual openings will offer very good job opportunities. The average income is reported as $40,863 annually.

**Want college credit?**

Students who successfully complete all course requirements and receive certification may be eligible to receive 3 lower level academic credits through the American Council on Education (ACE). For more information, go to the ACE website at: http://www2.acenet.edu/credit and search for World Instructor Training Schools on the ACE CREDIT Evaluated Organizations list. Transfer of credit is at the discretion of the receiving school and is not guaranteed.

Health Care • Basic Life Support

Basic Life Support - Health Care Providers
In this classroom-based course, healthcare professionals learn to recognize several life-threatening emergencies, provide CPR to victims of all ages, use an AED, and relieve choking in a safe, timely and effective manner. Participants who successfully complete the written exam and skills validation will receive an American Heart Association BLS for Health Care Providers card, valid for two years. The textbook is included in the price of the class and should be picked up during the week prior to class in Kinney Hall, Room K407 or at the Danbury Campus Administration Office. Please be on time or you may be turned away at your own expense.

This course meets most healthcare employers’ requirements for formal BLS evaluation and is a prerequisite to many health care education programs, including those at NVCC.

Career Spotlight

Central Sterile Processing Technicians

The current job market calls for Central Sterile Processing Technicians not just in hospitals, but also places like surgical centers, endoscopy offices, dental offices and even travelling opportunities for temporary assignments. This course will prepare you for national certification that many area employers are requiring for employment.

Many employers require national certification by a professional organization as a requirement for hire or for a new employee to have the certification within a limited time from their start date. For information about certification options and career and job opportunities please view these professional organization websites:

The Certification Board for Sterile Processing and Distribution (CBSPD): sterileprocessing.org
International Association of Healthcare Central Service Material Management: IAHCSMM.org

Central Sterile Processing Technician Professional Practice Experience

Take the next step in preparing for a career as a Central Sterile Processing Technician. This course will help you transition the knowledge learned in the classroom to the clinical work site through hands-on experiences in instrument preparation, decontamination, sterile storage and sterilization under the supervision of expert professional staff members who will help you build your confidence.

Prerequisites:

• Successful completion of the CSPT Certificate Program at NVCC within 6 months of the clinical assignment is required.
• Health screening and up-to-date immunizations are required. Proof of annual flu shot is also required, November - April.

Additional Important information:

• Student must provide own transportation to clinical site.
• Clinical schedules are during daytime hours
• Professional attire is required. Clean scrub pants and shirt, closed toe shoes, socks and hosiery must be worn.
• Students are required to participate in an orientation at their host facility and wear facility ID badge at all times.

Patient Confidentiality

Everyone’s Job, Not Everyone’s Business!

It’s everyone’s job, but not everyone’s business! Patient confidentiality is protected by law and healthcare providers have the professional, ethical and legal obligation to protect it as well. Know which information you can or cannot discuss at the dinner table or at work, and the rules you must follow to be in compliance with the latest HIPAA privacy and security regulations.

Medical Coding and Billing Specialist

**Coming This Fall!**

Do you envision working in the healthcare field, but not directly with patients? Medical Coding and Billing might be just the career you are looking for. Employment prospects for Medical Coding and Billing Specialists remain strong. Our graduates are employed in a variety of settings including: physician offices and clinics, medical group practices, managed care companies, insurance companies, hospitals and other health providers.

The Medical Coding and Billing Specialist program at our Waterbury Campus starts each fall semester. The program includes 450 hours of combined classroom and clinical learning. Classes are held three weekday evenings per week for three hours. The program will take you one year, plus your professional practice experience, to complete. There are four modules, including a daytime clinical experience. Students successfully completing the program will be eligible to sit for national professional certification. At $6,500, you’ll find that NVCC is extremely cost-effective compared to other medical coding and billing programs.

The cost includes textbooks for all modules.

**Career Spotlight**

**Medical Coding and Billing Specialist**

Medical Secretaries and Billing and Posting Clerks are listed by the Connecticut Department of Labor (CTDOL) as Hot Jobs. The average annual income for these careers is $38,114 - $40,618. The role of Medical Billing and Coding Specialists is undergoing dramatic changes with the implementation of ICD-10 coding criteria and the federally mandated compliance with electronic medical records. Our area employers state they are poised to grow and will strongly value the applicant with current knowledge of the industry standards. National certification is also available from recognized professional organizations. Information will be provided in class.

Approved for partial WIOA Funding

Check out our new Medical Administrative Assistant course! See page 10 for details.
Certified Nurse Aides care for people in their homes, long-term care facilities, hospitals, physician offices and clinics. You will participate in classroom discussions and lectures, have a chance to try out new skills in a safe and comfortable environment in our simulated labs and then go on to gain experience in a clinical setting. Registered Nurse instructors will facilitate your learning in all areas. After successful completion of our program you will be well prepared to take the State of Connecticut Nurse Aide Competency Exam given on site and included in the cost of the course. NVCC’s annual Connecticut State Competency Exam pass-rate exceeds 98%.

Important course and student information:

- Please visit our website nv.edu/cna or call 203-575-8029 for detailed course calendars. Some variations in dates and times may occur in each schedule.
- Federal and State-mandated attendance requirements must be met.
- A textbook will be provided for your use for the duration of the class at no additional charge. A workbook is included in the cost of the course and will be provided in class.
- A health screening and up-to-date immunizations are required by the second week of class. Documentation must be in the form of a completed NVCC CNA Health form. This form can be downloaded at nv.edu/cna.
- A watch with a second hand and a uniform consisting of navy blue scrub top and bottom with white or black shoes are required.
- Students are responsible for their own transportation to and from clinical location. Some but not all clinical facilities are located on a bus line and availability is not guaranteed.
- A criminal background check is required of all students entering the program. Cost is included in the course fee. Students with criminal convictions may have difficulty finding employment, especially in health care and may be denied clinical placement. Felony or misdemeanor offenses may prevent you from participating in clinical and mandate withdrawal from the program. No course refunds are available in this situation. Please consult the program coordinator prior to registration if you have any concerns.
- The Connecticut State Competency Written and Skills Exam is administered on-site and is included in the cost of the course.

*Prerequisite - Students in accelerated CNA must provide proof of high school diploma or GED at registration.
CNA Frequently Asked Questions (FAQ)

There are other CNA programs. Why NVCC? Are they all the same?

NVCC is proud to offer one of Connecticut’s largest, oldest and most respected CNA programs. All of our instructors are experienced Registered Nurses. We more than meet the minimum standards set by the State. You will get more hours of practice in our health lab and more supervised time working with residents in the clinical setting. Our program includes one opportunity to sit for the on-site Connecticut Nurse Aide Competency Exam and is included in the cost of the course. Students will attend classes in a college setting and have access to college support resources, including the library and Center for Job Placement and College Opportunities. A graduation ceremony is held for all successful participants and graduates are awarded completion certificates and a custom-designed NVCC CNA pin to wear proudly on your uniform. We hope that you decide to join us. You will be happy that you did!

Can I pay for tuition in smaller payments?

Yes, we offer a tuition installment plan which allows you to pay in two or three payments. The specific payment amounts and dates are listed in the plan. Call 203-575-8029 to have one mailed to you or print one online at nv.edu/cna.

Can I get financial aid for the CNA course?

Sorry, federal financial aid is not available for any of our non-credit courses. You may qualify for educational funding at the American Job Center if you meet income and employment criteria. Please contact them in Waterbury at 203-574-6971 or Danbury at 203-730-0451. Some area employers offer tuition reimbursement; please check directly with your employer. As noted above, we also offer a convenient NVCC tuition installment plan that allows you to pay for the course in installments.

I have a criminal record. May I register for the CNA course?

Those with a criminal record may have difficulty finding employment in the health care field at any level. A criminal background check is done for all students registered in the program during the first week of class. Students who do not pass the background check will not be admitted to the clinical facility and will be withdrawn from the program at their own expense. No refunds are awarded for withdrawal because of failure to pass the background check. Please consider this carefully before registering.

My certification has lapsed. What should I do?

Call the Department of Public Health, Nurse Aide Registry, at 860-509-7596. You may be required to either take the CNA course again or to retake the State certification exam.

I am certified in another state. How can I work in Connecticut?

Call the Department of Public Health, Nurse Aide Registration at 860-509-7596 for information about obtaining Connecticut credentials.

FAQ's continued on page 30.
Health Care • Nurse Aide Certification (CNA)

CNA Frequently Asked Questions (FAQ) (continued)

I am ready to sign up! How can I register for NVCC CNA or PCT Courses?
Registration details are on pages 62-63.

I want to be a nurse. Do you have a nursing program?
Yes. Many students pursuing a career in health care begin with the CNA program while earning money to continue their education. NVCC has an associate degree program preparing you as a Registered Nurse. Call the Admissions Office at 203-575-8040 or go to nv.edu/nursing for more information.

How can I get information about CNA courses at NVCC?
1. Visit us online at nv.edu/cna to view or download detailed course calendars, tuition installment plan and health form.
2. Call 203-575-8029 or email nc@nv.edu to request a CNA information packet be mailed to you.
3. Visit Kinney Hall, Room K407, on the Waterbury Campus or NVCC Danbury Campus, 183 Main Street, to pick up a CNA information packet.
4. Attend one of our free information sessions. See page 5.

Here is what our students say...

"I had a great experience here at NVCC. All of the instructors were so polite and cared about student success."

Ryan Kelly
NVCC Student, CNA

Career Spotlight
Certified Nurse Aide

The Connecticut Department of Labor (CTDOL) reports the average annual income for Nursing Aides, Orderlies, and Attendants is $32,188 with a mean hourly rate of $15.48. The CTDOL lists Certified Nurse Aide as a Hot Job and states employment in this occupation is expected to grow about as fast as average, and the number of annual openings will offer excellent job opportunities.

It is mandated that for employment, all nurse aides must be listed on the Connecticut Nurse Aide Registry. Successful completion of the Connecticut Nurse Aide Competency Exam is required for registry. The exam is given on site and included in the cost of the course.
Health Care • Patient Care Technician (PCT)

The Patient Care Technician (PCT) Certificate Program is an exciting opportunity for you to start your healthcare career or advance your skills, earn a better salary and have more job options in a changing work environment. PCT's are valued members of many healthcare teams. They work in hospitals, rehabilitation settings, physician offices, clinics, and long-term care facilities. The PCT will expand the knowledge and skills of the nurse aide to care for patients with complex and sometimes acute diagnoses. Learn the art and science of drawing blood specimens, accurately recording an electrocardiogram, and working within a sterile field used for surgical procedures.

The Patient Care Technician Certificate Program is a series of courses, including Nurse Aide Certification (CNA), which prepares you to enter the healthcare profession and care for a variety of patient populations. The courses may be taken on a part-time or full time basis in Waterbury or Danbury. Choose the pathway and schedule that fits your goal. Need help deciding? Attend a free Program Information Session (page 5).

PCT Fast Track
If you are ready to get going and want to finish quickly, then you should register for the PCT Fast Track. The schedule provides you with all the required courses and two electives (Medical Terminology and the Hospital Clinical) in a preset calendar to have you job ready in just months. The Fast Track also includes Computers for Health Care and Math for Health Care as part of the program. Students who already have their CNA may request to join the Fast Track schedule at a reduced rate. Please contact 203-575-8029. Classes forming for Summer and Fall 2016.

PCT "á la carte"
Some students wish to pursue courses at their own pace and choose their own plan. This allows students to plan courses around other commitments. Not all courses are offered each semester. Course schedules often rotate between day and evening sessions and between Waterbury and Danbury locations. PCT courses can also be taken individually to add to your skill set, for example a CNA working in a physician’s office might take the EKG and Pulse Oximetry Skills class.

Health Care • Patient Care Technician (PCT)

Why PCT at NVCC?

**Student Success is Our Expectation!**

- Our experienced faculty are experts in their fields and ready to support your learning in the classroom and the clinical setting.
- The program content was created in collaboration with area employers to assure you learn the knowledge and skills employers are seeking.
- The curriculum is designed to provide you with a breadth of patient care skills that give you a broader arena in which to seek employment.
- Students enjoy the resources and support of the College community.
- The Center for Job Placement and College Opportunities is available to assist you in your job search, tune up your resume, post to our jobs board, practice your interviewing skills and find the opportunities available to you.
- The Academic Center for Excellence and the Max R. Traurig library staff are available on the Waterbury and Danbury Campuses.
- Choose the course schedule that meets your life and learning styles. We offer Fast Track and "a la carte" options as well as day and evening classes.
- Individual certificates are awarded at the completion of each course; giving you documentation of your competencies as you earn them. Take these along to job interviews.

PCT Fast Track

**Coming This Fall!**

This program is designed to get you job ready in just months. Start with an orientation to the job role, earn your Nurse Aide Certification (CNA) and culminate in a hospital clinical experience. In this PCT Fast Track program, you and your classmates will take a prescribed schedule of classes designed to give you a strong background that is desired by employers in our area. Students who already have their CNA may request to join the Fast Track schedule at a reduced rate. Contact 203-575-8029.

- Federal and State-mandated attendance requirements must be met.
- Due to weather and other unforeseen circumstances, some variations in dates and times may occur.
- All students are required to have a background check prior to clinical participation. Cost is included in the course fee.
- Students with criminal convictions may have difficulty finding employment, especially in health care, and may be denied clinical placement. A criminal background check is required of all students entering the program. Felony or misdemeanor offenses may preclude you from participating in clinical and mandate withdrawal from the program. No course refunds are available. Please consult the program coordinator prior to registration if you have any concerns.
- Textbooks are included in the cost of the course.
- Graduates receive a custom-designed NVCC PCT pin.

**Prerequisites:**

- A high school diploma, GED or equivalent
- A health screening and up-to-date immunizations are required by the second week of class. Documentation must be in the form of a completed NVCC CNA Health form. This form may be downloaded at nv.edu/pct.
PCT Orientation
This required course will review important information to prepare the student for entry into the PCT program. It is strongly recommended that students take this class first but registering within the first semester of course work is acceptable.

Topics will include:
- What is a PCT?
- Where do PCT’s work?
- Personal program planning
- Course descriptions
- How to choose electives

Phlebotomy for the Patient Care Technician
The art and science of phlebotomy is an important part of the role of many patient care technicians. This course will include: skin puncture techniques, collection procedures, legal issues, safety concerns, infection control and quality assurance. Teaching methods include lecture and supervised hands-on practice in a simulated lab setting but does not include a clinical rotation. The textbook is included in the cost of the course and will be provided at the first class session.

Prerequisite: CNA
Required course for PCT program.

Health Care • Patient Care Technician (PCT)

Rehabilitation Skills
Designed for the health care worker (CNA/PCT), this course will provide you with the necessary skills to properly handle patients and facilitate optimal health and rehabilitation. This energizing class is packed with useful information and hands-on practice. Rehabilitation skills will include:

- Body mechanics
- Bed positioning, mobility and transfer
- Ambulation, balance and wheelchair training
- Assistive/mechanical devices - what they are and how they are used

Prerequisite: CNA
CRN 1950 10 sessions
Tuesday, January 5 - March 8
5:30 pm - 8:30 pm • Rm: E320A
Instructor: Staff $340

Behavioral Health
This exciting 15-hour course will help you recognize the signs and symptoms of common behavioral health disorders such as bipolar disorder, schizophrenia, panic disorders, depression, drug and alcohol abuse, and eating disorders. Learn to effectively deal with people of all ages suffering from behavioral health disorders and discuss how to recognize and cope with the stress in your own life as well as your patients and their families. The course materials are included in the cost of the course and will be provided in the first session.

CRN 1948 2 sessions
Sunday, March 13 & March 20
9:00 am - 4:30 pm • Rm: E320A
Instructor: J. Yvette Tucker, MS $250

Hospital Clinical
Care of the Hospitalized Patient
This is your opportunity to explore the dynamic world of acute care as you take your advanced care skills into a hospital setting. You will care for various patient populations: medical, surgical, orthopedic, postpartum, emergency or others during your 30-hour clinical experience.

Prerequisites: Documentation of prerequisites must be provided to the Office of Non-Credit Lifelong Learning in K407 prior to the first class.

- Current CT CNA Certification.
- Current health screening (within 1 year) that includes: Up-to-date immunizations, negative TB documentation and proof of flu vaccine.
- Health care provider’s signed statement that the student may participate in the course activities without restrictions. NVCC health form is available at nv.edu/cna.
- Successful completion of Advanced Patient Care Skills course at NVCC.

Questions about prerequisites must be addressed before the start of the course. Contact the program coordinator, Patricia Targett at ptargett@nv.edu.
An information packet, will be emailed prior to the start of class. Please be sure to provide your updated email address to be sure you don’t miss this important information.

CRN 2101 4 sessions
Monday, January 25, 4:00 pm - 10:00 pm
Saturday, January 30 - February 13, 6:45 am - 3:15 pm
Rm: Off Campus
Instructor: Colleen D’Amico, MSN, RN $500
**Advanced Patient Care Skills**

This 30-hour course is designed to build on the knowledge and skills of the CNA course. Participants will learn skills including:

- Wound care and sterile dressings
- Respiratory procedures
- Advanced catheter care and specimen collection
- Pre and post-operative care
- Administration of enemas and colostomy care
- Nasogastric tubes and tube feedings
- Point-of-care testing - glucometer

There will be opportunities for students to have extensive supervised hands-on practice in a skills laboratory setting. The required textbook and workbook are included in the cost of the course and will be provided at the first class session.

**Prerequisite:** CNA

**EKG & Pulse Oximetry Skills**

Learn the knowledge and skills to accurately obtain a 12-lead EKG and pulse oximetry measurement. Cardiac and respiratory anatomy and function, lead and sensor placement, recognition of normal vs. abnormal readings and how to adapt to unusual patient situations will also be taught. This course includes classroom and hands-on lab experience. (This course does not prepare you to be an EKG technician.) A textbook will be provided for your use for the duration of this course at no extra charge.

**Select one of the following sections:**

  - $250

**Alzheimer's & Dementia in the Elderly**

Dementia is a general term for a decline in mental ability severe enough to interfere with daily life. Memory loss is an example. Alzheimer's is the most common type of dementia. This very informative and relevant course is designed to provide CNA's and PCT's with the most current knowledge and skills needed to work with and support this challenging population of people. Students will participate in lecture, discussion and role-playing activities designed to enhance understanding of these disorders, the best strategies for managing them, and how they affect the people and the families that we care for. Elective for the PCT program.

Pharmacy Technician

Pharmacy Technicians are important members of the healthcare team. They receive and process prescriptions, maintain stock levels, and fill unit-dose medication carts under the direction of a licensed pharmacist. In this 60-hour course, students will learn dosage calculation, I.V. flow rate, drug compounding, and dose conversion. The textbook and instructional materials are included in the cost of this course.

Prerequisites:

- High School Diploma, GED or equivalent.
- High school math, including solving simple algebraic equations. Free online Elementary Algebra is available. Contact Lisa Crick at lcrick@nv.edu.

Important Student Information:

- Students with criminal convictions may have difficulty finding employment, especially in healthcare. Felony or misdemeanor offenses will preclude you from participating in clinical and mandate withdrawal from the program. No course refunds are available. Please consult the program coordinator prior to registration if you have any concerns.
- Students may register for Pharmacy Technician Clinical with the start of summer registration beginning the end of April. Look for more information on our webpage, nv.edu/pharmacy

Select one of the following sections:

CRN 1905        20 sessions
Abbott Technical High School
Thursday, February 11 - June 23

Health Care • Pharmacy Technician

Pharmacy Technician Clinical
Explore the role of a Pharmacy Technician in the professional environment. Enhance your knowledge and improve employment opportunities by participating in the real world functions of a Pharmacy Technician in a patient care and customer setting. You will gain experience in central pharmacy functions including sterile IV compounding, narcotic vault, barcode medication identification, and unit dosing technology. Based on your facility placement, you may also gain experience with automated inventory carousel and dispensing cabinets, or order entry and medical records. Duties will include inventory, labeling, preparing doses, IV sterile preparation, medication delivery and pre-packing.

Prerequisites:
• Successful completion of the Pharmacy Technician course at NVCC. (Registration is accepted from currently registered Pharmacy Technician students).

Important Student Information:
• Current health screening (within 1 year) that includes: Up-to-date immunizations, negative TB documentation and proof of flu vaccine is due at the first class.
• All students are required to have a background check prior to clinical participation. Cost is included in the cost of the course. Felony or misdemeanor offenses will preclude you from participating in clinical and mandate withdrawal from the program. No course refunds are available. Please consult the program coordinator prior to registration if you have concerns.
• Business casual dress and white lab coat or scrubs required, depending on your placement.

Phlebotomy Technician

Do you want to be an integral member of a healthcare team? Phlebotomy Technicians facilitate the collection and transportation of laboratory specimens, process Medicare and insurance claims, and have contact with diverse population groups while assuring high quality, patient safety and demonstrating strict professional behavior.

The Phlebotomy Technician program at NVCC will provide the student with 200 hours of classroom instruction, simulated lab experience and clinical validation opportunities needed to meet the growing demands of the role of the phlebotomy technician. Our coordinator will schedule your clinical experience at one of our partner facilities:

- Danbury Hospital satellite offices:
  Southbury, Danbury, Ridgefield, Brookfield
- The Hospital of Central Connecticut, New Britain

Clinical schedules are daytime hours, typically 7:00 am - 3:00 pm, Monday through Friday for 2 - 3 weeks. Clinical hours and days may vary with the location assignment. Evening hours are not available. Textbooks are included in the cost of the course.

Uniforms, your choice of solid color v-neck scrub top and matching pants, along with clean shoes/sneakers, are required to be worn for all classes, labs, and clinical. Uniform must be washable. No sweats, spandex, or leggings will be allowed.

Here is what our students say...

"The teachers were very professional and knowledgable. I would highly recommend NVCC to everyone and anyone that is interested in returning to school."

Joseph Aubin
NVCC Student
Phlebotomy Technician

Select one of the following sections:

CRN 1869 200 hours
Abbott Technical High School
Classroom: February 8 - June 6, Evenings, Rm: ABTECH
Clinicals are scheduled following successful completion of classroom work.
Instructor: Staff $3,150

CRN 1871 200 hours
Classroom: March 14 - July 6
Evenings / Saturdays • Rm: E318A
Clinicals are scheduled following successful completion of classroom work.
Instructor: Lisa Vacarelli, BS, SM, MT $3,150

*For detailed course calendar please visit nv.edu/phleb or call 203-575-8029.
Prerequisites: High school graduation/GED.
Students must:
- Maintain personal medical insurance coverage.
- Submit a current health screening, including up-to-date immunizations and documentation of the flu vaccine.
- Have transportation to clinical sites and daytime availability.

National certification exams are available and will be described in more detail in class. For information about certification options, please check out this professional organization website: American Society of Clinical Pathologists at ascp.org.
Hospitality

Food Safety Certification
This course is designed for non-degree students employed in the food service industry. Learn aspects of applied commercial food service sanitation resulting in a nationally recognized certification as required by Connecticut law. Prevention of food-borne illness, sanitary procedures in the protection and service of food to the public, laws and regulations, sanitary design and employee training will be discussed.

The textbook, Food Safety Certification: Servsafe Coursebook, 6th Ed., w/Exam, ISBN 978013383503 may be purchased at the George D. Yonan Memorial Bookstore (see page 58). This course requires students to access and participate in learning activities online. Computers are available on campus.

CRN 1957 9 sessions
Monday, January 25 - April 4
No class 2/15 & 3/21
5:30 pm - 7:00 pm • Rm: T626

ServSafe Alcohol
Developed with input from experts in the restaurant, legal, regulatory, academic, insurance, medical and law enforcement fields, this program is a holistic approach that helps assure everyone has the training they need to serve alcohol responsibly. Lessons cover essential information including alcohol laws and responsibilities, evaluating intoxication levels, dealing with difficult situations and checking identification.

The short text, Servsafe Alcohol: Fundamentals of Responsible Alcohol Service w/exam Sheet, 2nd Edition, ISBN 9780132100663, which may be purchased at the George D. Yonan Memorial Bookstore (see page 58), must be read prior to the start of class. Upon successful completion of the exam the student will receive a certificate from the National Restaurant Association.

Languages

Elementary Spanish I
This course focuses on the basic acquisition of the four skill areas (speaking, listening, reading, and writing) for survival communication. There is constant exposure to the cultural diversity of the Hispanic world using audio and visual media. Knowledge of the language and culture is further enhanced by the technological component which requires students to use the Internet for various class activities. This class is designed for the beginning learner of the Spanish language.

Beginning Conversational French
This course will teach you how to communicate easily and comfortably with those who speak French. You'll learn practical, common phrases that will make your trip to the many French-speaking regions of the world more pleasant. Since proper pronunciation is important to good communication, this course will help you master the best pronunciations. Simply click on each word to hear it spoken! Every word and sentence is also written out phonetically using sounds that you are already very familiar with from English words.

Discover Sign Language
In this course you will discover how to use this graceful, expressive language to communicate with Deaf people. You'll begin with an introduction to the language itself, and learn to create the signs for numbers. You'll also master the sign alphabet so you can fingerspell proper names. Then you'll learn to sign phrases and expand to complete sentences, and see how to put it all together so you can introduce yourself and start a conversation.

This course is taught using the best practices of the industry with a minimum of audio support. Throughout, you'll be immersed in silence, so you'll gain an understanding of the perspective of Deaf people and sign language.

Instant Italian
This dynamic course will teach you how to express yourself comfortably in Italian. You'll learn practical, everyday words and phrases that will make your stay in Italy more enjoyable. You'll read, hear, and practice dialogues based on typical situations that you're likely to encounter while staying in Italy. The dialogues and follow-up exercises of each lesson will teach you to communicate in Italian in a wide variety of settings. You'll be surprised by how quickly and easily you can learn many useful expressions in Italian!
English as a Second Language (ESL)

Are you new to the U.S.A.?
Do you need to refine your English skills for the workplace?
Are you preparing to take classes in the U.S.A.?

Naugatuck Valley Community College has what you need!

Our English as a Second Language program is designed for students whose native language is not English. It endeavors to help students attain a level of proficiency in English that will enable them to reach their academic, career or personal goals.

We offer grammar, oral communication, pronunciation, and reading and writing courses at the beginning, intermediate and advanced levels.

Placement tests determine the appropriate level and course for you. The testing consists of two parts: a computerized LOEP (Level of English Proficiency) test and a writing sample.

Manufacturing

NVCC is committed to providing the educational and training opportunities for employees and potential employees that will meet the needs of manufacturers in our region. In association with the Advanced Manufacturing Technology Center, we are proud to offer courses on a variety of manufacturing topics.

Manufacturing courses will be offered at W. F. Kaynor and Henry Abbott Technical High Schools. Topics will include Blueprint Reading, Metrology, Math, Tool and Die Metal Stamping Technology, CNC Machining, Principles of LEAN, Quality Control and Inspection. If you are an employer with employees that need some additional knowledge or skills, please contact Sharon Lutkus at 203-596-2197 or slutkus@nv.edu.

**Manufacturing Math I**
Gain the knowledge to apply mathematics and its applications in the manufacturing environment. Learn fractions, decimals, tolerances, percentages, power and roots, metric system, positioning, ratios and proportions. The textbook is included in the cost of the course.

CRN 1973 30 sessions Tuesdays & Thursdays, January 21 - May 10 No class 3/22 & 3/24 4:05 pm - 5:30 pm • Rm: E315 Instructor: Michelle Allen $550

**Quality Control Inspection**
Learn a comprehensive understanding of inspection necessary to identify product dimensional compliance. Methods introduced will support in-process inspection and receiving activities. This course will use hands-on activities utilizing different forms of inspections. The student will learn how to collect and interpret data in this manufacturing process.

CRN 2239 8 sessions Kaynor Technical High School Tuesdays & Thursdays, March 1 - March 24 5:30 pm - 8:30 pm Instructor: Scott Haeffner $400

**Blueprint Reading I**
An introduction to blue print reading with a study of orthographic projection. Topics include lines and their uses, auxiliary views, sectional views, basic and special dimensioning, dimensioning practices for holes, chamfers, angle, tapers, keyways diameters and radii. Also, geometric tolerancing and dimensioning is covered. Textbook may be purchased at the George D. Yonan Memorial Bookstore. See page 55.

**Select one of the following sections:**

**CRN 1952** 12 sessions Thursday, January 21 - May 17 No class 3/24 2:10 pm - 3:55 pm • Rm: T645 Instructor: Robert Emerson $425

**CRN 2174** 12 sessions Kaynor Technical High School Tuesday & Thursday, February 23 - March 24 5:30 pm - 8:30 pm Instructor: Thomas Kenyon $425

This program (or event) is funded (in whole or in part) by the Connecticut Advanced Manufacturing Initiative, TC-26448-14-60-A-9, as implemented by the United States Employment and Training Administration.
Manufacturing

Metrology
In manufacturing hundreds and thousands of parts are produced each week. Most are produced by machines that are run by computers that have been programmed by specially trained operators. Over time, the producing machinery may shift slightly, become dull, or lose alignment. Metrology is the technology that assures that parts are produced to precise specifications and ensures a quality product. This course will provide hands-on practice with the instruments required to make these important measurements. The textbook is included in the cost of the course.

Select one of the following sections:

CRN 1975 15 sessions
Tuesday, January 26 - May 10
No class 3/22
2:00 pm - 3:55 pm • Rm: T515

Introduction to Tool & Die and Metal Stamping Technology
Tool and Die specialists are in tremendous demand by manufacturing companies. A Tool & Die Specialist is a class of machinist in the manufacturing industry that can make jigs, fixtures, molds, machine tools, gauges and other tools used in manufacturing processes. This course will introduce the students to this specialized field of manufacturing called Tool and Die making, along with an in-depth training on the set up and operation of the Waterbury Farrell Deep Draw Press used with progressive die technology, a crucial component of the Tool and Die industry.

CRN 2180 30 sessions
Kaynor Technical High School
Tuesday & Thursday, February 23 - June 5
5:30 pm - 8:30 pm
Instructor: Staff  $1,200

CNC Intermediate
This CNC machining and programming course includes: Cartesian coordinates, safe use of CNC equipment, setup and operation of a two-axis CNC lathe and a three-axis CNC machining center, programming and runoff of parts. Students will program simple parts for a CNC lathe using a conversational control and parts in G code language for a CNC vertical machining center.

CRN 2229 8 sessions
Kaynor Technical High School
Tuesday & Thursday, May 3 - May 26
5:30 pm - 8:30 pm
Instructor: Edward Drapatin  $550
Manufacturing

OSHA 10 Hour General/Manufacturing
This course for private sector personnel covers OSHA policies, procedures, and standards, as well as general industry safety and health principles. Topics include scope and application of the OSHA general industry standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. Upon successful course completion, the student will receive an OSHA general industry safety and health 10-hour course completion card. Materials included.

CRN 1857 2 sessions
Saturday, January 9 - January 16
9:00 am - 4:00 pm • Rm: T515
Instructor: Michael DeVivo $335

Principles of Lean and Quality Control
This course provides the student with an overview of the history of LEAN manufacturing and the theory behind it. Review the Toyota Production System along with the Kaizen Event. Students will learn the tools of applying these methods as they relate to manufacturing.

CRN 2238 8 sessions
Kaynor Technical High School
Tuesday & Thursday, April 5 - April 28
5:30 pm - 8:30 pm
Instructor: Scott Haeffner $400

Introduction to EDM - New!
Electrical Discharge Machining (EDM) is commonly used in tool, die and mold-making industries. This introduction to EDM technology will include both the history and present day applications of this machining process. Learn basic terminology, operation, and maintenance of the Wire EDM as a foundation to additional modules that will increase your understanding and skills of this important metal-cutting technology.

CRN 2264 3 sessions
Tuesday, Wednesday & Thursday, January 12 - 14
5:30 pm - 8:30 pm • Rm: T400
Instructor: Eugene Rek $286

Career Spotlight
Manufacturing
Manufacturers are one of the most sought-after workers in Connecticut. The Connecticut Department of Labor projects a 2.6% growth in manufacturing jobs by the year 2022 with an average of 2434 job openings annually.

For workers with experience in manufacturing, it presents an opportunity to modernize your skill sets, making you more attractive to employers in today’s job market. If you’re new to the workforce, the AMTC certificate will have you confident and prepared to work in a manufacturing environment in one year. Regardless of your background, NVCC has manufacturing education to meet your career goals.
Manufacturing Applications
Learn to apply the principles and concepts of manufacturing. Discover the nature of strategy and learn how it leads to the development of manufacturing strategy. Understand the purpose of customer demand forecasting and find out what forecasting methods are suitable for which situations.

Manufacturing Fundamentals
Learn the basic skills required to work in the manufacturing field. Discover the role of production design, process planning, and the heart of 13 different manufacturing processes. Understand why facility location and plant layout decisions are so vital and learn how job design helps you accomplish company goals and achieve worker satisfaction.

Purchasing Fundamentals
Discover and master the fundamentals of purchasing by understanding your strategic and tactical roles as a purchasing practitioner. Improve your company's bottom-line profitability by learning and implementing key concepts such as negotiation, supplier sourcing and qualification, outsourcing and make-or-buy analysis. Learn the basics of supplier partnerships, capital budgeting and green buying.

Supply Chain Management Fundamentals
You will learn which actions to take when confronted by almost any situation. You'll understand how to represent top management's interests on the shop floor, and you'll know how to translate such initiatives as strategic planning, sales and operations planning, and new product introduction into achievable, operational plans. The course also includes essential information to help you prepare for internationally recognized supply chain and materials management certification examinations.

Six Sigma Total Quality Applications
Learn how to effectively apply the elements and methods of Six Sigma. Understand how more than 25 tools and methods relate to the DMAIC (define, measure, analyze, improve, and control) model. Determine the relationship of basic statistics to Six Sigma and learn about the Six Sigma business case including strategic planning, the voice of the customer (VOC), quality function deployment (QFD), benchmarking, and financial investment methods.

Online courses just $125 each!

Motorcycle Rider Safety

NVCC - Waterbury Training Site

Motorcycling is one of the most exciting forms of transportation around! Part of the thrill of motorcycling is the knowledge that you are totally responsible for every action taken, from timing each shift to keeping a keen eye out for other motorists. To understand these responsibilities and get the most from your experiences, a Rider Education Course is the place to start. CONREP is a statewide program directed by the Connecticut Department of Transportation (DOT).

We provide quality motorcycle training for new, intermediate, and experienced riders.

**Basic Rider Course (BRC):** designed to teach individuals with little or no riding experience what is involved in operating a motorcycle or scooter safely. The BRC begins with the development of the fundamental skills: straight-line riding, braking, turning, and shifting. It then expands on these basic skills into more advanced street riding techniques. This course consists of 22 hours combined classroom and on-cycle instruction, with periodic breaks. Successful completion of this course fulfills the requirements of the State-approved Basic Rider Course for licensing. On-cycle testing is completed at NVCC as part of this course. The written and vision tests are taken at the DMV. Motorcycles or Scooters and helmets are provided. Participants must have a valid CT driver’s license (a motorcycle learner’s permit is not required to take this course). **Fee: $220**

**Intermediate Rider Course (IRC):** designed for riders with some experience who are currently riding their own motorcycle/scooter. You must have a minimum of 600 street riding miles, or more than 6 months riding experience. Riders will improve skills in braking, cornering, evasive maneuvers, and learn ‘street strategies’ necessary for survival. The course consists of 10.5 hours combined classroom and on-cycle instruction, with periodic breaks. Successful completion of this course fulfills the requirements of the State-approved Intermediate Rider Course for licensing. Participants will use their own street legal (no straight pipes) motorcycle or scooter that is registered and insured in the participant’s name. You must ride to class, no hauling bikes/scooters to class on a trailer or truck is permitted (No Exceptions). Bikes will be inspected. You must provide proof of your current motorcycle permit, registration, and insurance card. **Fee: $130**

Please see page 47 for important registration and class information.

Student information packets, course schedules, registration and waiver forms are available to print online at nv.edu/motorcycle, by calling 203-575-8029 or emailing nc@nv.edu to request a packet be mailed or faxed to you. Registration begins January 11.
Motorcycle Rider Safety

**Experienced Rider Course (ERC):** Even if you've been riding for some time, there's always something new to learn in this 6.5 hour on-cycle course. Using your own registered, insured, street legal motorcycle/scooter (bike will be inspected) for the ERC, you will have the opportunity to fine tune your riding skills during advanced maneuvers such as stopping in the shortest distance, cornering, swerving, tight turns, and other evasive skills. Riders must provide proof of a valid motorcycle license, current registration and insurance card in the participant’s name. You must have a minimum of **1000 miles**, or more than **10 months** riding experience. Passengers may participate in the course also. **Fee:** Rider: $100 / Passengers: $20

**Private, semi-private, and group lessons** may be scheduled by contacting the program coordinator, John Purdy at 203-575-8123 or jpurdy@nv.edu.

---

**Important Registration & Class Information:**

Registration is on a first-come, first-served basis. We must receive the Registration Form, the Liability Waiver Form, and full payment to secure your seat. All forms are available at nv.edu/motorcycle or by contacting the office at 203-575-8029 or nc@nv.edu.

Classes run rain or shine from April through November. Requests for transfer or withdrawal must be received in writing a minimum of three business days (72 hours) prior to the start of class. Full attendance is mandatory. **You must be on time for class. If you are late, you will not be permitted to enter and you will not be refunded the course fee.** In order to complete your training, you will need to register for another course section and pay the fee again.

Student information packets, course schedules, registration and waiver forms are available to print online at nv.edu/motorcycle, by calling 203-575-8029 or emailing nc@nv.edu to request a packet be mailed or faxed to you. Registration begins January 11.
Online Learning with ed2go

Take ed2go courses from the comfort of your home or office at the times that are most convenient for you. The instructor-facilitated online courses are informative, fun, convenient, highly interactive, and affordable.

Prices start at $125 per course. All courses run for six weeks (with a two-week grace period at the end). Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links and more.

Some courses may have prerequisites or require software to be installed on your computer before you begin the course. Check the requirements tab for each course before you register.

Courses listed throughout the catalog are just a sample of over 300 courses available. For a complete course catalog, descriptions, course numbers, pricing, outlines, and requirements visit ed2go.com/nvcc and click on Courses.

Course dates:
- Section 1: 1/21 - 3/13
- Section 2: 2/18 - 4/10
- Section 3: 3/18 - 5/8
- Section 4: 4/15 - 6/5
- Section 5: 5/20 - 7/10

To request CEU’s for qualifying courses contact 203-596-8711 or Lcrick@nv.edu.

Real Estate

Real Estate Principles and Practices
Real Estate sales in Connecticut are on the rise! Take this real estate salesperson and broker pre-licensing course and start your new career today. It provides a comprehensive introduction to the real estate business for those interested in learning more about this exciting industry. You will be introduced to brokerage, listing agreements, buyer/seller representation, ownership of real estate, legal descriptions, taxes, contracts, liens, transfer of title and more.

Those students intending to sit for the state of Connecticut licensing exam must attend 60 hours and pass this course with a grade of 70 or better. You may take the Real Estate Principles & Practices course prior to 18 years of age, however you must be at least 18 years old to receive a real estate license. A high school diploma or a GED is not required for someone to obtain a real estate salesperson license. The textbooks are included in the cost of the course and provided at the first class session.

Select one of the following sections:

Instructor: Staff $650

Career Spotlight

Real Estate Sales: The Connecticut Department of Labor (CTDOL) reports the average annual income for a Real Estate Sales Agent is $51,864 and employment in this occupation is expected to grow about as fast as average, but the number of annual openings will offer good or favorable job opportunities.

Real Estate Broker: The Connecticut Department of Labor (CTDOL) reports the average annual income for a Real Estate Broker is $72,759 and employment in this occupation is expected to grow more slowly than average, and the number of annual openings will offer limited job opportunities.
Real Estate Relicensing Seminar for Salespersons and Brokers

March 19, 2016 • Rm: T509
$35 per course

Complete Your 2016 Real Estate Continuing Education Requirements in one day!
Salespersons and brokers must complete 12 hours of continuing education every biennium. We will offer four, 3-hour courses in one day. At the time of publication course topics were being reviewed for approval by the Connecticut Real Estate Commission and will be announced at nv.edu/realestate.

Take just one or up to all four!

• Includes Mandatory CT Real Estate Law Update
• Includes NAR Ethics Course
• Call 203-575-8029 for detailed schedule and additional course offerings.

Deadlines for the 2014-2016 Real Estate Continuing Education Cycle:
Brokers: March 31, 2016
Salespersons: May 31, 2016

Appraisers
Please refer to: www.ct.gov/dcp for continuing education requirements.
Please note that courses offered on this page are not approved for appraiser continuing education.
Security Officer Certification with Finger Printing

Complete this one day, 8-hour course required to be a security officer in Connecticut. Your training will include a day packed with small group discussion and simulated experiences as you learn about private security, search and seizure, basic first aid and many other public safety issues.

Students are required to complete a written exam with a minimum score of 75%. A State-issued (any U.S. state) photo ID is required in class and it is suggested that students bring a lunch.

Upon successful completion, to be eligible to obtain employment, students will need to apply for a Security Officer Identification Card from the Connecticut Department of Public Safety, for an additional fee (approximately $170). Applicants are required to include one set of fingerprints with their application; which will be completed in class by an authorized officer. Full application requirements will be reviewed in class. Students with criminal convictions may have difficulty obtaining State Certification and employment.

Please note that full attendance is required and you must be on time. If you are late you will be turned away at your own expense. No refunds are given for tardiness.

For more information on the Security Officer Identification Card, please visit the Connecticut Department of Public Safety website, www.ct.gov/DPS, Special Licensing and Firearms.

Career Spotlight
Security Officer

Security Officer positions are available in many businesses such as security agencies, retail stores, hospitals, schools, banks, housing complexes, and construction businesses. The industry will continue to grow as companies are becoming more creative in their service and use of manpower. The Connecticut Department of Labor (CTDOL) reports the average annual income for Security Guard is $26,924. The CTDOL lists Security Guard as a Hot Job and states employment in this occupation is expected to grow about as fast as average, and the number of annual openings will offer excellent job opportunities.

Here is what our students say...

“The class has given me an extremely positive outlook for a security job. The teacher was positive and outgoing and created a fun and positive environment to learn in.”

Kevin Milia

An Introduction to Teaching ESL/EFL
Discover innovative ways of teaching vocabulary and grammar, listening and speaking and reading and writing.

Creating K-12 Learning Materials
Learn how to create and self-publish workbooks, lab manuals, booklets, activity kits, visual aids, manipulatives, and other powerful instructional aids.

Differentiated Instruction in the Classroom
Improve your ability to teach diverse learners with real-world examples from elementary, middle, and high school classrooms.

Empowering Students With Disabilities
Explore common disabilities you’ll encounter in the classroom and master techniques for promoting academic, behavioral, and social skills in students with special needs.

Creating Classroom Centers
Learn how to create engaging, easy-to-maintain classroom center activities that boost independent learning while increasing small-group instruction time.

Guided Reading and Writing: Strategies for Maximum Student Achievement
Get the professional development training you need to improve student literacy as an accomplished teacher shares the secrets of turning guided reading strategies into opportunities for teaching writing.

Integrating Technology in the Classroom
In this professional development course for teachers, learn the secrets of technology integration in the classroom by gaining the skills educators need to use tools such as wikis, podcasts, and blogs effectively.

Microsoft PowerPoint 2010® in the Classroom
Learn how to motivate students and enrich lessons by bringing Microsoft PowerPoint 2010 into your classroom.

Microsoft Word 2010® in the Classroom - New!
Explore fun and creative lesson plans for introducing Word to your students.

Singapore Math Strategies: Model Drawing for Grades 1-6
Get the training you need to start teaching model drawing, the powerful Singapore Math strategy that gives word problems a visual context.

Spanish in the Classroom
Learn the essential Spanish for teachers so you can communicate effectively with your Spanish-speaking students and parents.

Teaching Adult Learners
Learn powerful techniques for reaching and motivating adult learners in today’s student-centered classroom.

Teaching ESL/EFL Grammar
Learn new methods for teaching English grammar that will both engage and challenge ESL/EFL students.

Teaching Smarter With SMART Boards
Master the use of SMART Board and SMART Notebook technology so you can create powerful interactive lessons that capture your students’ attention.

This is a sample of Teaching and Education courses available.

To request state of Connecticut teacher’s CEU’s for qualifying Teaching and Education courses, contact Lisa Crick: lcrick@nv.edu or 203-596-8711.
SAT Preparation - The New SAT

Ready. Set. Go. Prepare Now & Test Better

Anticipated SAT Test Dates: March 5, May 7, June 4

The SAT (The Scholastic Aptitude Test) tests your knowledge of reading, writing and math. Most colleges and universities use the SAT as part of their admission process. Let our experienced educators help you prepare to do your best on test day with our math and critical reading/writing workshops. The textbook is included in the cost of the course.

Critical Reading/Writing Workshop
Select one of the following sections:

CRN 1958
Wednesday, January 20 - March 2
7:15 pm - 8:45 pm • Rm: T516
Instructor: Ann Rodgers, MS $175

CRN 1959
Tuesday, March 29 - May 3
7:15 pm - 8:45 pm • Rm: T515
Instructor: Ann Rodgers, MS $175

Math Workshop
Prerequisite: Successful completion of one full year of Geometry.
Select one of the following sections:

ACCUPLACER®
Placement Test Prep - A+dvancer™
Limited Availability

Will you be starting college this spring?
Accuplacer® placement tests are mandatory at most Connecticut colleges, including NVCC. Your scores will determine the math and English classes for which you may register.

Want to save time and money?
Don’t spend time and money on classes you may not need. Review math and reading with Advancer™ online courses, improve your placement scores and gain entry into higher level coursework.

Courses are designed to provide you with the lessons you need. Easy-to-use online subject review and practice tests will help you get prepared to succeed on the ACCUPLACER® placement test.

Arithmetic Review
Open registration, online, $59

Elementary Algebra
Open registration, online, $59

Reading Comprehension
Open registration, online, $59

Ready to Register?
Step #1: Register for these placement test review courses by mail, phone or fax. See pages 62-63 for details and registration form.

Step #2: Email to receive your course access information to: lcrick@nv.edu. Include the following:

• Student's name
• Email address
• The name of the course for which you registered
• Student ID (if known)
Welding

Welding is a specialized skill that serves a variety of industries and is used in many ways throughout the world. Career opportunities include working in:

- Welding shops
- Manufacturing of metal goods
- The petroleum and natural fuel extraction industry
- Construction
- Plumbing and pipe welding
- Plant maintenance
- Automobile manufacturing and repair
- Ship building
- Aerospace
- Railroad construction and repair
- and many more...

There are many career paths for a skilled welder and at NVCC you can earn the qualifications you need to start your career in this exciting field! You may want to sample three common welding techniques in our Welding Processes course or pursue advanced skills and certification in specialized welding techniques. Take advantage of entry level and advanced courses in Gas Tungsten Arc Welding (GTAW), Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), and an advanced course Flux Core Arc Welding (FCAW), right here in our state-of-the-art lab at NVCC. Our advanced level courses will help you prepare for certification in accordance with American Welding Society standards. If you are not sure of what class to take or what technique will meet your career goals, please attend our free information session.

Welding Information Session - Free!
This free session is for anyone interested in learning more about the welding profession and will provide an explanation of the welding techniques offered and a tour of our state of the art lab.

Select one of the following sections:

CRN 4266 1 session
 Wednesday, December 16
 6:30 pm • Rm: T652
 Instructor: Sharon Lutkus

CRN 1858 1 session
 Wednesday, January 20
 6:30 pm • Rm: T515
 Instructor: Sharon Lutkus

CRN 1977 1 session
 Wednesday, May 25
 6:30 pm • Rm: T516
 Instructor: Sharon Lutkus

Welding Processes
This course is designed for the beginner and provides an introduction to three processes widely used in the welding field: Shielded Metal Arc Welding (SMAW/ Stick), Gas Metal Arc Welding (GMAW/MIG) and Gas Tungsten Arc Welding (GTAW/TIG). You will learn the basics of welding safety, cutting, equipment and materials used in these processes in our state of the art welding lab. The cost of the course includes all personal safety gear and practice materials.

CRN 1863 3 sessions
 Saturday, January 23 - February 6
 9:00 am - 3:30 pm • Rm: T403
 Instructor: Richard Munroe $850

For additional welding career information please check out these web sites:

FCAW (Flux-Core)* ........................................... 90

Here is what our students say...

“Very knowledgeable instructor who’s able to give each student the personal attention they need to improve their welding skills. I will not hesitate to return to NVCC to learn another type of welding.”

Trevor Dinwoodie, NVCC Student
GTAW Advanced

Basic Gas Metal Arc Welding (GMAW/MIG)

GMAW is a process used mostly in manufacturing and repair shops. Students will be introduced to: welding safety, shield gases, equipment / metal selection and preparation. The required safety gear, textbook, and welding supplies are all included in the cost of this course and will be provided at the first class.

CRN 1864  15 sessions
Monday & Wednesday, February 22 - April 11
6:00 pm - 9:00 pm • Rm: T403
Instructor: Angelo Petrolle  $2,100

Advanced Gas Metal Arc Welding (GMAW/MIG)

This advanced course in GMAW will prepare the student for welding certification. Students will be tested in accordance with the American Welding Society (AWS) D1.1 3G certification. Included in the cost of the course is NVCC certification lab materials and OSHA 10 Safety Certification.

Prerequisite: Basic GMAW or permission of the instructor.

CRN 1865  17 sessions
Monday & Wednesday, April 25 - June 15
No class 5/30
6:00 pm - 9:00 pm • Rm: T403
Saturday, June 4 - June 11,
9:00 am - 3:30 pm • Rm: T515
Instructor: Angelo Petrolle  $2,500

NVCC Learn 2 Earn!  nv.edu/nc  •  203-575-8029  •  nc@nv.edu
Basic Gas Tungsten Arc Welding (GTAW / TIG)

GTAW, also known as TIG welding, is primarily used to weld stainless steel, aluminum, titanium and other nonferrous metals. It is used in various industries, including manufacturing, aerospace and piping. Students will be introduced to: welding safety, electrodes, shield gases, equipment, plasma cutting, and metal selection and preparation. The required safety gear, textbook, and welding supplies are all included in the cost of this course and will be provided at the first class.

CRN 1866 15 sessions
Tuesday & Thursday, February 23 - April 12
6:00 pm - 9:00 pm • Rm: T403
Instructor: Joseph Demeter $2,100

Advanced Gas Tungsten Arc Welding (GTAW / TIG)

This advanced course will prepare the student for welding certification. Students will be tested in accordance with the American Welding Society (AWS) D17.1, 2F Certification. Included in the cost of the course is NVCC certification lab materials and OSHA 10 Safety Certification.

Prerequisite: Basic GTAW (TIG) or permission of the instructor.

CRN 1867 17 sessions
Tuesday & Thursday, April 26 - June 16
6:00 pm - 9:00 pm • Rm: T403
No class 5/26
Saturday, June 4 - June 11
9:00 am - 3:30 pm • Rm: T515
Instructor: Joseph Demeter $2,500

Basic Shielded Metal Arc Welding (SMAW)

Learn the basics of Shielded Metal Arc Welding (SMAW). The SMAW techniques and processes are often referred to as STICK welding and are widely used in the maintenance and construction industries. Gain an understanding of the required equipment, interpret welding symbols and prints, and then put it all together while you practice your new welding skills in a state of the art welding lab. Textbooks, safety gear and materials are included. 60 hours

CRN 2237 10 sessions
Saturday, February 20 - April 30
No class 3/26
9:00 am - 3:30 pm • Rm: T403
Instructor: Angelo Petrolle $2,800

Here is what our students say...

“...the class was awesome; it gave me a quick overview of the three types of welding. Joe (Demeter) was a great instructor and kept us involved. I will most definitely be returning for more welding.”

Jason Langlais
NVCC Student

Duplicate Non-credit Certificates
Naugatuck Valley Community College issues initial non-credit certificates at no cost to you upon successful completion of all your program requirements. You are responsible for the safekeeping of this certificate. A duplicate or replacement certificate may be obtained for a processing fee of $15. To comply with FERPA laws, all requests must be in writing and signed by the student to whom the certificate was issued. The following information must be included:

• Full name
• Name at the time of the course
• Current mailing address
• Current phone number
• Student ID or birthdate and last four digits of Social Security number
• Course or program name
• Semester and year course or program was completed
• Signature (not electronic) and current date

This process requires verification of successful program completion and may take up to three weeks. Mail the requests to:

Naugatuck Valley Community College
Kinney Hall, Room K406
Attention: Duplicate Certificate Request
750 Chase Parkway, Waterbury, CT 06708
or fax to 203-575-8243

Customer Information

George D. Yonan Memorial Bookstore
Location: Student Center/Plaza Level, Room S300
Phone: 203-575-8075
Email: naugatuck@bkstr.com
The College Bookstore is located in the Cistulli Student Center. Once you are on campus, take the Student Center elevator (located near the cafeteria) from level 5 down to level 3. The Bookstore is located across from the elevator doors. From the parking garage, take the center most elevator up to level 3.

Extended Hours • Spring 2016
Monday, Jan. 18........................................Holiday, Closed
Tuesday, Jan. 19 - Friday, Jan. 22.............8:30 am–7:00 pm
Saturday, Jan. 23........................................9:00 am–1:00 pm
Monday, Jan. 25 - Thursday, Jan. 28.. 8:30 am–6:00 pm
Friday, Jan. 29.............................................8:30 am–1:00 pm
Saturday, Jan. 30.......................................8:30 am–1:00 pm

Regular Hours • Spring 2016
Beginning Monday, February 1, the Bookstore will revert to regularly scheduled hours:
Mondays, Tuesdays...........................8:30 am–6:00 pm
Wednesdays, Thursdays .....................8:30 am–4:30 pm
Fridays.................................................8:30 am–1:00 pm

Textbooks can also be ordered online at: nv.edu/bookstore. Hours are subject to change.

Textbook and Course Supply Information
Many of our courses require textbooks or other instructional materials to maximize your learning. Read the course descriptions carefully for these required materials. Most textbooks are either included in the cost of the course and supplied in class or can be purchased at the George D. Yonan Memorial Bookstore at the Waterbury Campus. If you have any questions concerning course materials, please contact the program coordinator for assistance. Textbooks are not available for sale at the Danbury Campus at this time but can be ordered online. We recommend that you purchase books no sooner than 10 days prior to the start of class to be sure that it is running.
Certificate Completion

Certificate requirements for completion are stated with the appropriate programs in the catalog. If you have prior experience and wish to discuss a course substitution, please contact the program coordinator. See page 57.

Changes & Cancellations

The College reserves the right to make changes to the information listed in this publication or to cancel courses due to insufficient enrollment or other reasonable causes. Full refund is made if the College cancels the course. (See refund policy.)

If a course is cancelled, you will be notified by phone, email and/or mail prior to the starting date (provided we have your most up-to-date contact information). If your instructor cancels a class for weather-related or other emergency reasons, he or she will implement the communication plan discussed with students the first class.

College Closings & Delays

College closings due to inclement weather are announced over local AM/FM radio/TV stations, on the college website (nv.edu), on the college’s main phone line (203-575-8000) and a text message is sent to everyone who is registered through the myCommNetAlert System.

Likewise, in the event of an early closing, the same communication will occur. If the college has a delayed opening, all classes that begin before the delayed opening time will not be held that day and will be rescheduled at another time.

Danbury and off-site cancellations: If NVCC cancels or delays classes, this applies to Waterbury and Danbury Campuses as well as off-site locations. In the event of cancellation or delay of Danbury classes only, an announcement will be posted on nv.edu/Danbury or you may call 203-797-9361 for an automated message.

Nondiscrimination

Naugatuck Valley Community College does not discriminate on the basis of race, color, religious creed, age, sex, national origin, marital status, ancestry, present or past history of mental disorder, learning disability or physical disability, sexual orientation, gender identity and expression or genetic information in its programs and activities. In addition, the College does not discriminate in employment on the additional basis of veteran status or criminal record. The following individual has been designated to handle nondiscrimination policies regarding disability policies: Robert Divjak, Director of Facilities/Section 504/ADA Coordinator, Room C216, Naugatuck Valley Community College, 750 Chase Parkway, Waterbury, CT 06708; 203-575-8235. The following individual has been designated to handle nondiscrimination policies regarding disability policies: Jacquie Swanson, Associate Director of Human Resources/Title IX Coordinator, Room K704, Naugatuck Valley Community College, 750 Chase Parkway, Waterbury, CT 06708; 203-575-8043.

Financial Assistance

Non-credit courses are self-supporting and are not supported by taxpayer dollars. Costs vary. State law does not allow us to exempt senior citizens. Educational expenses may be allowed as a tax deduction. Consult with your accountant to verify deductions. Specific information on veterans benefits, employer reimbursement, private lending institutions, tuition installments letters and NVCC payment plans is available on page 4.

Refund Policy

Withdrawal and refund requests must be received three business days (72 hours) prior to the beginning of class unless stated otherwise in the course description. Refunds are not granted after this deadline.

Telephone: 203-575-8029
Mail: Non-Credit Refunds, Room 407
Naugatuck Valley Community College
750 Chase Pkwy., Waterbury, CT 06708
Email: nc@nv.edu

If there is a course cancellation due to insufficient enrollment, students will be notified by phone, mail and/or email. Please make sure when registering that your contact information is up-to-date. We would like to offer you the opportunity to transfer to another section, if available, or to another class of your choosing. If we have not heard from you within 7 business days, a refund will automatically be processed. Please allow 2-4 weeks for processing. The person registered in our records system is the person who will receive the refund.

Students with Disabilities

If you are a student with a learning disability that may require an academic adjustment, please contact our staff at 203-575-8161. Students with all other disabilities must contact Laurie Novi at 203-575-8035. Adjustments will only be provided to those students who have completed the disabilities disclosure process. Please contact the appropriate office at least three weeks prior to the course. Failure to do this may result in a delay or inability to provide the requested adjustment(s).

Tuition Installment Plans

An Installment Payment Plan is available for many longer, more expensive programs. Please visit nv.edu/nc and the specific program page for more information.

    Maintenance, Receiving

Parking & Facilities
Parking is available throughout the campus. Watch for signs and park in student-designated spaces only. Carpooling is encouraged.

The room temperature in our buildings is subject to variation and cold drafts are common, especially in the colder months. Temperature control is not available within individual classrooms. Please dress accordingly. Many students have found layering with a sweater or jacket is necessary, even in summer.

See page 61 for directions.

Park in student-designated spaces only.
Parking for Danbury Campus: See page 58.

Naugatuck Valley Community College complies with the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act". This report contains a summary of the NVCC Public Safety Department’s policies and procedures along with crime statistics as required. Anyone wanting a copy of the report may obtain one by contacting NVCC’s Public Safety Department at 203-575-8113 or by stopping in the office, Core Building Room 122. The office is open 24 hours per day, 365 days per year.
Directions to NVCC

NVCC Waterbury Campus  
750 Chase Parkway, Waterbury

Route 8  
Take the Danbury exit onto Rt. I-84 West, then first exit off I-84 (exit 18). Bear left to light and take a left. Go to second light for East Entrance or third light for West Entrance.

Route I-84 West  
Take exit 18, bear left to light and take a left. Go to second light for East Entrance or third light for West Entrance.

Route I-84 East  
Take exit 18. At light take a right and at next light take a right. Go over bridge and at light take a left onto Chase Parkway. Go to first light for East Entrance or second light for West Entrance.

Parking for Waterbury Campus  
Visitor parking spaces are available outside of Kinney Hall. Students and visitors may park in any legal parking spot in the garage or open lots that is not designated as faculty or staff.

Public transportation is readily available.

NVCC Danbury Campus  
183 Main Street, Danbury

Route I-84 West  
Take exit 5. Turn right at the light onto N. Main St./Main St., CT-53, for 1.1 miles. At the intersection of Liberty and Main streets, 183 Main St. is on the left.

Route I-84 East  
Take exit 5. At end of ramp, proceed through stop sign straight to light. Turn right onto Main St./CT-53 for 0.8 mile. At the intersection of Liberty and Main streets, 183 Main St. is on the left.

Parking for Danbury Campus  
Free parking is available for currently registered NVCC students and teaching faculty at the Patriot Garage located on the corner of National and Delay Streets. Patriot Garage parking permits are available at the NVCC Danbury administration office.

Public transportation is readily available.

NVCC at Henry Abbott Technical High School  
21 Hayestown Avenue  
Danbury, CT 06811

Route I-84 East  
Take Exit 6. Continue straight on North Street. Turn right at the 5th traffic light onto Hayestown Avenue. The entrance is on the left.

Route I-84 West  
Take Exit 6. Turn right at light onto Route 37 North. Turn right at the first light on Hayestown Avenue. The entrance is on the left.

Parking is readily available outside the front entrance.

Parking is readily available at the side and back of the building.
Customer Information

Payment must be made at the time of registration. Registrations without payment are subject to cancellation. Students are responsible for the applicable charges should they fail to withdraw from the class(es) they have registered for within three business days (72 hours) prior to the start of class.

With the exception of walk-in registrants paying with cash, a receipt will be mailed to you upon completion of the registration process. If you do not receive a receipt within five business days, call the Cashiers' Office at 203-575-8055.

Refund Policy - see page 59.

The College has taken steps to ensure the confidentiality of your registration information including name, address, phone number, date of birth and Social Security number. College policy is to collect student Social Security numbers as our registration system relies on them for identification purposes only. If you do not have a Social Security number by reason of foreign citizenship, please contact us at 203-575-8029.

Third-party payments - For information about paying for an employee to attend a course see page 4 or call 203-575-8029.

How to Register

Waterbury Campus

Walk In:
NVCC, 750 Chase Parkway, Waterbury, CT 06708-3011
Office of Non-Credit Lifelong Learning Registration, Kinney Hall, Room K407
Monday - Friday, 8:00 am to 5:00 pm

Mail:
Complete registration form (see page 63) and mail with payment to: NVCC,
Non-Credit Lifelong Learning Registration, Room K407
750 Chase Parkway
Waterbury, CT 06708-3011

Fax:
Fax completed registration form (see page 63) with credit card information to 203-575-8277.
MC/Visa/Discover only

Phone:
Call 203-575-8029
Monday - Friday, 8:00 am to 5:00 pm
MC/Visa/Discover only

Danbury Campus

Walk In:
183 Main Street, Danbury, CT 06810-7805
Monday through Friday, 8:00 am to 5:00 pm

Mail:
Complete registration form (see page 63) and mail with payment to:
NVCC Danbury Campus
183 Main Street
Danbury, CT 06810-7805

Fax:
Fax completed registration form (see page 63) with credit card information to 203-798-9682.
MC/Visa/Discover only

Phone:
Call 203-797-9361
Monday - Friday, 8:00 am to 5:00 pm
MC/Visa/Discover only
Mail or Fax Your Registration

Mailing / Fax Instructions:

1. Complete the registration form; include birth date, social security number, citizenships status, and the CRN for each class (see course catalog for CRN number). Please include phone numbers and email so that our office may contact with room changes and cancellations.

2. Determine your payment method; check, money order, or credit card (MC/Visa/Discover only). Payment must be provided at the time of registration. If using a credit card, please provide the information requested on the form and write clearly to ensure registration.

3. Choose one method:
   - Mail form with check, money order or credit card # (MC/Visa/Discover only), expiration date and 3 digit security code to:
     NVCC, Room K407, Office of Non-Credit Lifelong Learning Registration, 750 Chase Parkway, Waterbury, CT 06708-3011
   - Fax the form to with credit card (MC/Visa/Discover only) information to 203-575-8277.

4. The student ID number is assigned to each person registered at NVCC or any other Connecticut Community College. If you are a first time student, an ID is generated at the time of registration and becomes your permanent student ID number. It will appear on your course receipt. Please retain this number for future registrations at NVCC.
