Career Spotlight

Manufacturers are one of the most sought after workers in Connecticut. The Connecticut Department of Labor projects a 2.6% growth in manufacturing jobs by the year 2022 with an average of 2434 job openings annually. For workers with experience in manufacturing, it presents an opportunity to modernize your skill sets, making you more attractive to employers in today’s job market. If you’re new to the workforce, the AMTC certificate will have you confident and prepared to work in a manufacturing environment in one year. Regardless of your background, NVCC has manufacturing education to meet your career goals.

- Quality Control Inspection

Whether you are new to the manufacturing industry or are seeking to change or improve your position in the industry, NVCC has courses designed to fit your needs. We are committed to providing the educational and training opportunities that will meet the needs of the manufacturers in our region.

Naugatuck Valley Community College is excited to offer select manufacturing courses on our NVCC campus in Waterbury, at Henry Abbott Technical School in Danbury, and W.F. Kaynor Technical School in Waterbury.

Connecticut, especially the Waterbury and Danbury region, has a rich manufacturing history and is poised for another growth era. Opportunities are available in numerous manufacturing processes.

Production occupations are no longer the dirty sweat shop or the “Lucille Ball candy assembly line” jobs. Today’s manufacturing methods require knowledgeable and highly skilled workers. Training is extremely important to the future of manufacturing.

Whether you are new to the manufacturing industry or are seeking to change or improve your position in the industry, NVCC has courses designed to fit your needs. We are committed to providing the educational and training opportunities that will meet the needs of the manufacturers in our region.
